complement or supplement this central source. Only in this way can we provide equitably for the tax relief so desperately needed by large numbers of the state's taxpayers.

2. "In supporting the Convention I was convinced, and I remain convinced, that most State problems result from our inequitable system of apportioning State legislative seats. This system, which gives control of the lawmaking process to an irresponsible outside minority, mocks the legitimate aspirations of urban and suburban voters. "As a candidate in the most underrepresented district in the State, and one still grossly underrepresented under the proposed document, I will ask the voters to sanction the undemocratic apportionment proposed in the new Constitution. Instead, I will urge them to join with me in seeking equitable changes in the present Constitution."

SMITH, 38, holds a master's degree from Northwestern University and is a political science teacher at Highland Park Junior College, teaching part-time also at Wayne State University. He is a member of the Oak Park School Board and the citizens' advisory committee to the school board of that city. He serves on executive committee of the Michigan Citizenship Clearing House.

Simply dial Midwest 4-1100 and a trained "ad-visor" will help you your way.

County

(Continued from 2-B)

Have been continuously in law enforcement since May, 1924.

"IF NOMINATED and elected, I will continue to maintain the same cooperation with the sheriff, village and state police that is now existing and give the people of our county the kind of law enforcement that they are entitled to and can be proud of.

"I will continue the high standard of supervision and sanitation of the county's roads, bridges and which has been highly commended by both state and federal inspectors of jails; also a safety division for the county, and a water patrol (43 members), also a skin divers unit (54 members), 13 are regular deputies, balance are volunteers. All are trained in all phases of skin diving.

"I will keep the Sheriff's office and law enforcement in step with the growth and progress of Oakland County. If problems arise, they are taken care of immediately."

KENNETH G. HIRT (D)

Ferdinand, age 34; high school graduate and graduate of two police schools; co-partner of Business Service Bureau, Pontiac; also a member of Oakland County; Troy Police Dept., head of the Mounted Div. Oakland County; helped to coordinate and establish a fire department in White Lake Township.

"THE BIG PROBLEM I believe is that the Personnel which has been a problem for quite some time in fact before the present Sheriff took office. I believe there is but one answer and that is in form of security for the men and women of the sheriff's department. To take politics out of police work and leave it for the politicians. There must be a juvenile officer or bureau for these communities in the county who do not have the benefit of a police department but have to rely on the sheriff's department for their enforcement."

Personnel which has been a problem for quite some time in fact before the present Sheriff took office. I believe there is but one answer and that is in form of security for the men and women of the sheriff's department. To take politics out of police work and leave it for the politicians. There must be a juvenile officer or bureau for these communities in the county who do not have the benefit of a police department but have to rely on the sheriff's department for their enforcement."

Clerk, Register of Deeds

DANIEL T. MURPHY (R)
Pontiac; age 38; Completed 12th grade at Pontiac Central High and 4 years of college at Wayne State University; Oakland County Clerk-Register of Deeds; Employed by Oakland County; register of deeds for Oakland County from May 1956 to January, 1959.

"THERE ARE NO problems connected with this office that can be solved having in mind the county's present financial status. By this I mean that if when monies are made available for the purchase of electronic data processing equipment we in all probability would then speed up the operation of some of the departments.

"At the same time increasing the efficiency and decreasing the rest of the operation. At the present time the operation of the county establish and register of deeds is operating with the same number of employees that were working in the 2 departments in 1956. I have increased the efficiency in my office during my tenure by the use of new methods and new machinery and I will continue if elected to use whatever new methods and new equipment that in my judgement will tend to do the job more efficiently and economically."

DAVID S. LEES (D)

Troy; age 44; 2 yrs. MSU, production employee, Pontiac Motors.

"A COMPLETE change is needed in the administration of Oakland County. The present clique has had absolute control of all offices for too many years. It is time for an administration with a new perspective."

County Treasurer

CHARLES A. SPARKS (R)
Pontiac; age 69; high school; Oakland County Treasurer; Employed by Oakland County; Prior to January, 1932, insurance and real estate for self.

"THE PROBLEMS may be many but as the office is operated entirely by law we do not consider them very serious. The statutes don't always allow us to do our work in the shortest, quickest and most efficient manner possible. We would appreciate having the authority to legally number all descriptions in the county.

"This would allow for efficient data processing and is the procedure we recommend. However, as this is not a legislative action we can only hope the law will be changed to satisfy our desires and aims. We have always aspired to better efficiency and throughout the years have made this office a model of efficiency. The treasurer's office is self supporting and, in fact, returned excess to the General Fund in 1961. This has been possible only through able direction and, if retained will continue to be my policy."

BETTY H. McVAY (D)

Birmingham; age 54; BA in mathematics, and history at U of

Virginia and George Washington University, professional orientation in Girl Scout work-Lennox, Mass.; housewife; teacher in Virginia for 10 1/2 years, acting-director of Girl Scouts 1 1/2 years; Girl Scout camp unit leader for three summers; director of day camp, Fairfax County Council of Girl Scouts.

"THE COUNTY treasurer is the custodian of all the monies of the county dispensing payment of the appropriations made by the county board of supervisors; works with auditor general and serves on the ways and means committee; is a member of the employees retirement commission and allocation board."

"IF ELECTED I would administer the office as efficiently and economically as possible, and promote closer ties with the localities of government — townships and cities."

Surveyor

RALPH A. MAIN (R)
Birmingham; age 58; BSCE and CE Univ. of Pittsburgh; consulting civil engineer; self employed Main and Fox, Inc., chairman Oakland County Planning Commission; Birmingham City Commission 11 yrs.; trustee as mayor, Previously Oakland County Supervisor, Drain Commissioner 6 yrs.; Surveyor 6 yrs.

"THERE ARE NO problems, no work, and no burden on the taxpayers created by the office of Oakland County surveyor. I strongly urge the voters of Oakland County to vote to eliminate this needless office before it is too late. In some states the county surveyor is a powerful unit of government. It would not take much to make it such in Oakland County."

"Too many persons are seeking and finding employment in city, county, state, and federal offices. A majority of these could not make their living in private enterprise, yet they are in positions to demand more and more of those who are. We should decrease the number of public employees and return the country to free enterprise."

"Vote in November to eliminate the office of County Surveyor in Oakland County."

STANLEY F. DUNN (D)
Birmingham, did not reply to the questionnaire.

Chair

(Continued from 2-B)

retal diseases ever increase. To retard the inevitable change from capitalism to socialism, the capitalist owners of industry must constantly give up more of their economic plunder to feed and care for their working class victims.

"Higher taxes and budget deficits are inevitable if the present obsolete and insane society is to be maintained. There is no cure for Michigan's financial woes."

2. "Constitutional reform played an important role when capitalism was young and expanding. Today's conditions cry out for the abolition of capitalism and the building of socialism. No constitutional reform can improve a dying social system. The adoption or the rejection of

Congress

(Continued from 2-B)

those who have the most need for assistance. Those who have the means to pay their own way should do so, with little or no help from Federal programs.

6. "THE ADMINISTRATION of the Agency for International Development. I feel this agency is not giving maximum benefit for the investment our taxpayers are making in our overseas programs. We need more strings on our aid money, more attempts to get our assistance dollars to the people rather than throwing our dollars at a country and hoping its problems will go away."

BROOMFIELD, 40, HAS served three terms in the U. S. Congress and is a member of the house foreign affairs committee. He has served terms in the Michigan senate and house of representatives and was elected speaker pro tem of the state house in 1958. He attended MSU and has served as delegate to NATO Parliamentarians Conference in 1960 as well as serving as a member of the U. S. delegate to Canada, U. S. interparliamentary group. He resides in Royal Oak.

GEO. J. FULKERSON (D)

1. "The President should be delegated broad authority to negotiate with the nations of the world. The goal of these agreements should be a gradual reduction of tariffs and quota restrictions. To the extent any such action results in damage to industry or labor, then such programs should also assist such segments of the economy to re-invest, relocate or re-train.

2. "YES, AID should be of a technical and educational type which involves teaching the people how to raise food and livestock, how to control disease, and how to establish a school system. I am opposed to direct grants to the governments where we have no control over the ultimate use of the funds. The World Bank, United Nations, and other countries must participate in these programs.

3. "IT IS ESSENTIAL that we preserve our existing water supply by control of pollution and the transformation of ocean water for safe human use by desalination. These problems are national in scope and must involve the federal government participating with local units of government in order to insure adequate water resources for our expanding population and commerce.

4. "YES, FEDERAL assistance to the states to finance public school construction and teachers' salaries should be a matching-fund program with respect to primary, secondary, and higher levels of education."

the proposed constitution will not alter the condition of the working class in the least. Nationalism and insecurity and war will continue to haunt society as long as capitalism lasts. Sims, 35, has been a member of his party for 32 years and an industrial training machinist for 40 years. A resident of Dearborn, he finished his formal education when he was 14.

education. In addition, there should be national scholarships and low interest loans made directly to those in need to insure maximum educational opportunity beyond high school. Our greatest asset is the human mind. A sound, nationally-supported educational program is our wisest investment of federal funds.

5. "THE HEALTH needs of our elder citizens can only be adequately met by a combined program utilizing the Social Security approach and a matching-fund program with participating states for those elderly indigent persons who are not covered by social security.

6. "A NATIONAL program to shore up the local programs for education is the most significant problem of government. All other governmental problems rest upon the educational accomplishments of each American, since knowledge is the key to the solution of all human problems. No child should be penalized because his parents are poor or because the accident of birth have placed him in a depressed economic area which is unable to support a proper educational system."

FULKERSON, 35, was the Democratic nominee for Oakland County Prosecuting Attorney in 1960 and won his law degree from the U. of D., his bachelor of arts from the University of Chicago. He was appointed special assistant attorney general of the state in November, 1960. He has been active in PTA work and is a resident of Birmingham.

In Germany

Army Sgt. Bennie R. Tyler, 24, son of Mr. and Mrs. Samuel L. Tyler, 1796 Holland, Birmingham, Mich., recently completed eight weeks of intensive field training with other members of the 4th Armored Division at the Seventh Army Training Area in Grafenwohr, Germany.

ARMY SGT. BENNIE R. TYLER, 24, son of Mr. and Mrs. Samuel L. Tyler, 1796 Holland, Birmingham, Mich., recently completed eight weeks of intensive field training with other members of the 4th Armored Division at the Seventh Army Training Area in Grafenwohr, Germany.

Franklin Woman Hurt in Crash

A Franklin woman suffered a bruised neck in a four-car, chain collision on 13 Mile Road at Amherst Drive last Monday afternoon. Mrs. Gloria LeClaire, 39, of 28855 German Mill, was treated and discharged from William Beaumont Hospital. Beverly Hills Police said the accident occurred when a car driven by Harold Anderson, 31, of 2908 Iowa, Troy, struck the rear of Mrs. LeClaire's car. She was waiting behind two other vehicles for a traffic light to change at the intersection.

THE OTHER drivers were struck from the rear in the chain collision. They were Mrs. Helen Perkowski, 44, of Royal Oak, and Owen C. Duvally, 17, of 15929 Lauderdale, Beverly Hills. Duvally's car was in front of the other vehicles. Mrs. LeClaire was the only person injured in the crash.

Bloomfield Dads Donate Building

The Dad's Club of Bloomfield Hills High School has donated a large storage building for the athletic department. The pre-fab building will be placed near the grove of trees adjacent to the high school. A concrete foundation will be poured and the Dad's club members and the football squad will erect the building. A garage door will be installed in the center of the building to allow for larger equipment.

Texas Airman

Airman Third Class Alfred D. Ringsdorf, 5140 Tootmoor, Bloomfield Hills, Mich., is being reassigned to Bermuda following his graduation from the United States Air Force technical training course for data processing machine operators at Sheppard AFB, Tex.
