Physician Sentenced To Term in Prison After Guilty Plea

A sentence of two to five years for conspiring to commit an illegal operation was handed down last week in the case of Dr. Hugh H. Miley of 2769 Pendleton Drive, Bloomfield Township. Recorder's Judge Frank G. Scheinman passed sentence in Detroit after Dr. Miley pleaded guilty. The physician, who had office at 14237 Greenfield, Detroit, also faces a concurrent prison term for prescribing narcotics. He was sentenced last month on the narcotics charge to a two ten-year prison term.

Bircher to Sue Van Dusen for Hotel Incident

Notice of intention to sue a Birmingham resident, Richard Van Dusen, 32205 Bingham Road, for an alleged pushing incident at the state Republican Convention has been filed by Edward A. Kelly, state coordinator of the John Birch Society. The notice was filed in the Wayne County Circuit Court Friday by Kelly's attorney. He has fifteen days to file a bill of particulars. The alleged incident happened Aug. 24 in a Detroit hotel as a Romney supporter tried to remove Dusen, 32205 Bingham Road, from a wall sign promoting the Birch movement.

GRASS ON TRIAL: Research Director Victor Reener and Chairman of the Board Charles B. Mills inspect test plots of the new WINDSOR. The national headquarters for Scotts Research are housed in the Scotts plant in the background.

Good news for lawns - an exciting new grass!

A limited quantity of seed - a Scotts exclusive - is made available to the public for the first time.

Use of the word "exciting" to describe WINDSOR, a new variety of bluegrass, may seem a bit far-fetched to some people. What can be so exciting about anything as ordinary as grass? But those who are interested in their lawns will welcome the news and understand its importance. A new strain of grass of outstanding and established superiority is truly a rarity. There may be but one in a generation.

Color - Density - Strength
Scotts began to develop WINDSOR fourteen years ago when its research people were attracted by the rich, dark green carpet-like turf produced by the parent plant. Then Scotts geneticists and plant breeders discovered that WINDSOR possessed other advantages. In addition to greater density and better color, it proved to be more resistant to disease and to have greater drought resistance. Lawn tests, year after year, confirmed these findings. In time, you'll hear a lot more about WINDSOR. At present it is being harvested in limited quantities and is available only in

Best time to add new life to lawns

Fall is Nature's time to seed. The soil is warm, the weather is right, and there are months of good growing ahead. The right seed is just as important as the right timing. Choose the Scotts blend that gives the kind of lawn you want (all Scotts blends are all-perennial, 99.91% weed-free, the finest money can buy). Get the most good lawn per dollar by sowing Scotts seed at the economy spreader rate - and be sure to put down non-burning TURF BUILDER the same day. It gives new grass the protein-building diet it needs to thrive.
