ALSO TO THE Oakland County District Nurses Association who originally felt and urged the need for a training program, the community coordinators of the program, those civil defense directors after the civic-minded people who encouraged me in those low moments we all have—especially in a program where political, scientific and military changes naturally are followed by doubts, by rising and falling peaks of interest and apathy, causing days of self-doubt and introspection, wondering "are we doing and teaching the right thing?"

THIS HAS never been just a "job" but a cause, and I feel that the information dispensed has been valuable whether we are never faced with what we strive to avoid, thermo-nuclear war. This information may continue to be offered; and whether Oakland County is a target area, this knowledge will continue to better prepare citizens for emergency care of their families and others. I have lived in Oakland County for 23 years and I love it, am proud of it, interested in its welfare and extremely fond of its people from Holly to Hazel Park, from Farmington to Clarkston and Milford. I hope I can continue to be of service in some capacity in the future.

AT DAWN, the presentation of the gift was made, accompanied by a speech. "That billfold is genuine plastic," said Miss Nine a breath ahead of the unveiling. "That it was, and by far the nicest wallet I have ever owned. In addition to being perfect, it boasted
