B'ham Man Appointed to State Post
A Birmingham man has been appointed by Gov. George Romney to assist in the formulation of a program for state economic expansion. Thomas T. Hart, 36, of 6200 N. Adams, will work with L. William Seidman, the governor's special assistant for fiscal matters. They will also be working on the legislative budget and budget as well as personnel needs for a proposed commission on economic expansion. Romney has proposed the commission as a method of improving the state's job outlook. Hart, an assistant public relations manager in the state for Michigan Bell Telephone Co., has been placed on leave of absence by the firm.

Issues (Continued from 1-A)
have open roadside ditches for surface drainage and will require an additional 17 feet of width on each side of the concrete pavement for road shoulder and drainage ditch.
APPROVAL of this single proposition would authorize the council to sell bonds in the amount of \$1,032,700; but the passing of both propositions one and two will reduce this to \$799,100.
On proposition one, \$104,307 of the total of \$145,000 will be borne by the village at-large, with 15-year bonds. This will cost the village an annual \$9,900 for principal and interest. This amount will be raised by an increase in the general property tax of 48 cents per thousand of assessed valuation for 15 years.
THE REMAINING \$41,693 will be borne by the owners of property abutting 14 Mile from Evergreen west to the village limits, in the form of special assessments of \$8.44 per foot of frontage. Assessments will be reduced by 40 per cent for those properties which abut the side or rear lot lines rather than front lot lines. The total cost of \$44,000 on the country program of proposition two will be borne by the village at-large, with 15-year bonds at an annual cost of \$4,180. This will be raised by an increase in the general property tax of 20 cents per \$1,000 of assessed valuation.
THE VILLAGE at-large will also bear \$685,940 of the total \$1,032,700 of the program. The annual cost will be \$65,164 for 15-year bonds and the general property tax increase will be \$3.11 of assessed value.
The remaining \$346,750 will be borne by the owners of the property abutting Beverly from Evergreen and Evergreen from 13 to 14 Mile roads, Riverside from the bridge to Evergreen and 14 Mile from Evergreen to the west village of 40 its. The cost will be levied in the form of special assessments of \$10 per front foot, reduced 40 per cent for properties abutting the side or rear lot line.
CORNER PROPERTIES will be assessed the full \$10 per front foot but only \$6 per side foot. The passing of propositions one and two will reduce the \$10 per front foot along 14 Mile from Evergreen to the west village limits to \$8.44 per front foot and will reduce the \$3.11 per thousand village-at-large share to \$2.27.
Traffic control such as stop signs and landscaped islands will be constructed as necessary.
IF 60 PER CENT of the voters vote "yes" on March 11, the council will immediately request village engineers to prepare plans and specifications, which will take about four months.
Other procedures such as public hearings, approval from the Municipal Finance Commission and obtaining of bids will require seven to eight months.
This places the actual construction date at no earlier than May of 1968.
The program, as prepared by Councilman Claude A. Shephard, was passed with a unanimous vote of the six councilmen present, including Councilman John A. McClanahan, who up until this time was voted against the program. Council President Marvin B. Cline was out of town and not present to vote.

Paul Bunyan, the legendary lumberjack, cleaned his pipe with five-foot pole. It took a full-time man, using a scoop shovel, to keep the bowl of Paul's pipe filled with tobacco. Paul was 50 feet tall, as the story goes.
