

\$130,000 Swim Club Eyed in W. Bloomfield

WEST BLOOMFIELD TOWNSHIP—Plans for a \$130,000 swimming club complex were revealed this week. It will be the first in the township.

To be known as the Orchard Valley Swimming Club, the project will include construction of an outdoor Junior Olympic pool, complete bath house facilities, a recreation area and tennis courts. Work will start this year and a spring opening is planned.

According to Charles McPhee, president of an organizational committee, the club will serve about 1,000 families in Kimberley North, Briarcliff, Franklin Knoll and Franklin Valley subdivisions.

A kick-off drive for membership will be held at 8:30 p.m. Oct. 16 at the Ward Eagle School, 14 Mile and Middlebelt. McPhee urged that all interested in joining, from the four subdivisions, attend the meeting.

The club, an incorporated nonprofit organization will be built on a five-acre parcel of land, east of Orchard Lake Road and north of 14 Mile. Committee members expect a five-year waiting list for membership.

The pool, to be built by Baughman & Bigelow of Detroit, will be 45 by 80 feet and will include a diving oil and two diving towers.

Other committee members who have been working on plans for the club during the past two months are Richard Johnson, vice president; Mrs. Judy Sirko, secretary; and Bob Ostot, treasurer.

Scale model of new church including sanctuary, fellowship hall, chapel, educational building and bell tower.

St. Paul's Methodist Church To Begin Building Program

St. Paul Methodist Church, 185 E. Square Lake Road, Pontiac, has announced plans for its new building program.

The first financial drive for \$75,000 will be held in October and November and will be headed by the Rev. Forrest Reynolds, who works out of the Philadelphia office of the Division of National Missions of the Methodist Church.

Called the "Crusade for Progress," the campaign will involve actively many of the parishioners. Simultaneous with the announcement of the financial program was the announcement of the detailed building plans.

DESIGNED BY James B. Morrison of Detroit, the new building will include sanctuary, fellowship hall, chapel, educational building and bell tower. Contemporary in design, the church will be built out of glass, brick and stone.

The sanctuary will cost \$50,000, with an additional 40 in the choir. The fellowship hall below the sanctuary will seat 400 for dinner.

The overall cost of the new church will be \$400,000, with the first unit consisting of the sanctuary, fellowship hall and offices, costing \$225,000. It is hoped that construction on the first unit can commence in early spring.

under the chairmanship of Donald A. Tews and has been served by the following: Howard Nelson, Kenneth Healy, Eldon Parrott, Doyal Jones, Mrs. Charles Robinson, Richard Brennan, Arthur Hoehn, Mrs. Fred Guthrie, Charles Butler, Bruce Smith, Dean Toles, Frank Griffith and Herbert Zimmer. The Rev. James McClung is pastor of the church.

St. Paul Church moved to the new site in Nov. 1959, and under the leadership of the Rev. McClung has enjoyed growth to 341 church members and a church school of 400.

Founded in April, 1914, the church will celebrate its 50th year in 1964. Originally a chapel of the First Methodist Church in Pontiac, the church has had 14 ministers in its half-century of service.

THE-BUILDING committee is

Pony & Colt To Construct Ball Diamond

SOUTHFIELD TOWNSHIP—The green light was given the Pony & Colt League Tuesday to construct a \$6,000 baseball diamond in Southfield Park.

The township board okayed the plans submitted by Edwin Schreck, treasurer of the league, and bids will be invited immediately for the project.

The league will deposit money with the township to take care of grading, sodding, fence work and water service and the construction of bleachers, dug-out and flagpole.

THE TOWNSHIP reserved the right to specify the location of the diamond.

All six members of the board registered an objection to the construction of the dugouts, and they reserved the right to have them removed if they should become nuisances.

In other business, the board authorized the Southeastern Oakland County Water Authority to construct a 12-inch water main on 12th Road, between Greenfield and Southfield.

Problem

She was assured by road commission representatives at the meeting that such a survey would be made immediately. The commission will make a study of the number of hours a day the signal should operate.

Mrs. Johnson said after the meeting that she felt real progress had been made in solving the specific problems at Daniel Whitfield School.

MRS. JOHNSON was asked to appear at the meeting by Bloomfield Township Supervisor Homer Case, who is also a member of the Road and Bridges Committee.

Case has been seeking a solution to the question as Bloomfield Township has received several requests from school groups to bear the costs of operating this type of traffic signals, after the county road commission had refused to finance them.

He has written the four school districts operating within the township to see if they would share in the cost of traffic devices erected for school child safety.

He has had a verbal answer from the Pontiac School District in the negative. Bloomfield High School District was advised by counsel that such a use of school tax monies would be illegal, although Case has not received formal notification.

He has had no reply from the Birmingham or Avondale school districts.

First PTA Is Organized At Berkshire

An overflow crowd of over 300 jammed the cafeteria of the new Berkshire Junior High School recently to organize itself into the school's first PTA. Helping to get the group off to a good start were Ed Hakeley, principal, and George Whitehead, PTA Council President, who got the meeting underway. They were assisted by Eugene Thompson, council parliamentarian, and by Robert Lorenzen, council father vice president. The following officers were elected to serve the coming year:

President, Dr. D. Lloyd McKinney; father vice president, Karlton W. Pierce; mother vice president, Mrs. President; parliamentarian, Mrs. William E. Adams; teacher vice president, Mrs. William E. Oates, Jr.; treasurer, James L. Gullberg; recorder secretary, Mrs. William Crozier; corresponding secretary, Mrs. Richard T. Hatch.

Upon assuming the presidency, Dr. McKinney expressed pleasure at the opportunity to serve and pledged his best efforts to promote a functioning organization.

Thieves Steal Lingerie from B'ham Store

A total of \$67 in women's lingerie was taken from the Glassford Shop, 185 Pierce, late Friday or early Saturday, according to Birmingham police.

Entry was gained by breaking the glass in the back door of the shop, police said. In addition to taking the lingerie, the thief or thieves also took two partial mannequins.

NO MONEY was taken in the break-in, police said. A similar attempt to enter the store in September failed.

Officer Millard Squire said several traces of blood were found on the floor and a bed jacket the thief left behind.

Seaholm

(Continued from 1-A)

Hoff, who has already scored nine TD's this year.

The Marples possess a strong ground attack and will be more than a test for Ferndale's solid defensive line, which averages over 200 pounds.

Ferndale is 4-0 for the season, with victories over EML members East Detroit and Mt. Clemens. The Marples triumphed over leagueers Berkely and Hamtramck.

SEAHOLM, with three season victories under his belt, could knock Ferndale from the ranks of the unbeaten by stopping Super. As yet, no team has been able to do so.

In individual performances, the game will pit the running of Hoff against the play-calling of Super. But, it will take a effort to supply the victory.

The question is, which team?

Goal

(Continued from 1-A)

her cochairman Mrs. Thomas Vandegrift, Jr., 1491 Vista, Birmingham; Mrs. John Mitchell, 5420 Long Meadow, Bloomfield Hills; Mrs. James H. Hicks, 686 Waddington, Bloomfield Village; Mrs. Walter T. Hicks, 6998 Salsalwood, Wing Lake; Mrs. C. A. Rasmussen, 26909 Herseyville, Franklin; and Mrs. John Canavan, 16154 Marguerite, Beverly Hills.

3 B'ham Men to Head Pontiac United Drive

Three Birmingham residents will play key roles in the campaign to raise funds for the 1963 Pontiac Area United Fund.

General chairman of the drive will be E. M. Estes, 1088 Waddington.

He will be assisted by Earl A. Maxwell, 5608 Isthmia, who will be the fund's board of directors.

He is a member of the Society of Automotive Engineers, trustee of the Michigan State (Oakland) scholarship committee and is on the board of regents of General Motors Institute.

Maxwell, who is personal director of GMC Truck and Coach Division, is president of the Pontiac YMCA and is active in Junior Achievement and the Pontiac Chamber of Commerce.

Stephens, who is assistant public relations director for Pontiac Motor Division, is active in Boy Scout work.

IN BEVERLY HILLS

15 Quick Decisions—Council Leaves Early

By MAY SMITH
Special Writer

BEVERLY HILLS—Request for permission to put in a temporary trailer bank and approval of a plat for a new subdivision were two of 15 items dispatched with unusual celerity at the regular meeting Monday.

The council handled the long agenda in a rapid series of decisions. The meeting lasted only two hours.

The plat for Ronald's Subdivision, on Evergreen north of 13 Mile Road, was approved first. Howard T. Keating, developer, agreed to construct the roadway in two 18-foot strips separated by a six-foot median strip.

THE COUNCIL went on record as stating that the care of the median strip is the responsibility of the adjacent property owners.

Roger C. Richards, executive vice president of the Metropolitan Savings Bank, asked for permission to put up a temporary trailer bank during construction of a new building on their site at 14 Mile Road and Southfield.

Richards asked that the trailer be permitted on what will be the greenbelt acting as a buffer for neighboring residential properties, but the council suggested that it be placed elsewhere on the property.

MONEY raised in the region goes toward meeting the community campaign quota for Oakland County of \$323,075. The six units in the community campaigns are to provide \$148,493 toward the \$197,000 to be raised by Nov. 7 for the 1964 budgets of 195 local, state and national health and community services.

Edward N. Cole, 1371 Kirkway, Bloomfield Hills, a General Motors vice president, is general campaign chairman for the 1963 Torch Drive.

THE PERMIT was issued with a final date of May 1, 1964, and the bank must put in the work required by the plat before locating the trailer.

Village Manager Robert E. Murphy was asked to investigate the request of Dandy Druggs, 3125 Southfield, for a Special Designated Merchant (SDM) license to sell beer and wine for consumption off the premises, containing not more than 18 per cent alcohol.

SEVER inspection by means of closed circuit television was adopted. The cost for this type of inspection will be \$1,397, and the equipment will be secured from the Oakland County Department of Public Works, which also operates the TV cameras.

AT A COST of \$950, 18,000 yards of fill dirt will be moved to make the program and sled run in Southfield Park which the council approved during the summer. Construction will begin the last of this week and will take about 10 working days to complete.

Since the recreation fund did not have enough money for this purpose, it will come from the village services fund. Returns from the swimming program went into the miscellaneous fund.

An appropriation for \$5038.80 was made from the general fund for construction of a sidewalk along 13 Mile Road. Part of this amount will be returned by residents who are contributing to the sidewalk on a voluntary basis.

ANOTHER appropriation was made for \$145 to Campbell Advertising Service for the printing of 100 more copies of the zoning ordinance.

Edwin J. Heathfield, 31129 Fairfax, complained to the council that he had received an overdue notice on a village tax bill with a 10 per cent fine when he had not received the original bill. It was pointed out that notification by first class mail is sufficient under the law.

Stephen Smith, 30310 Vernon Drive, requested that an easement he had given for a 6-inch water main be returned to him since it was not used. The council agreed to do so.

Classes Still Open For Youngsters in YMCA Program

There are still some openings for children in the Saturday program at the Birmingham YMCA. The game room is open to third and fourth graders from 9 to 10 a.m., archery is offered from 10 to 11 a.m. for students in grades three through six, and the 10 a.m. to 12 noon leatherscraft class is open to any school age child.

The fifth and sixth graders may use the game room from 11 a.m. to 12 noon and all grades are invited to bring their lunches for a movie hour from 12 noon to 1 p.m.

Seventh through 12th grade students have the game room from 1 to 4 p.m. No fees are required of "Y" members.

Golfers Beware!

This is how the fence looks at the 340-yard No. 3 hole at Birmingham's new municipal golf course. City Manager L. R. Gare reports that the job of installing the 7,000 feet of fencing is almost completed. Gare also estimates that nearly 70 per cent of the major work involved in the construction of the course is finished. The 3,200-yard course is expected to be ready for play in the spring.
