Enrollment Up In Program For Adults

The fall enrollment in the Continuing (Adult) Education program has increased 9 percent (105 students), with a total of 1,841 individuals enrolled in 64 courses, according to Howard Malwitz, coordinator of continuing education.

New courses offered this fall include "Your Child and Reading," "Speculative Investments," "Drafting," and "Development of Western Culture."

THIS FALL, the Intermediate Shorthand course is meeting two nights per week instead of one. One of the Beginning Sewing Classes is meeting once a week for three hours, instead of two.

New course offerings are based on inquiry and requests from prospective students. Classes can be offered in any subject where facilities and instruction are available upon the request of 12 or more people.

The Continuing Education Department is located in the Hill Building, Chester and Martin Streets, Birmingham.

Goal

He said there was a possibility of taking the proposition to the state PTA Council level. IN TAKING the stand against selling tobacco to minors, the council stated that it was "unilaterally opposed to the prevailing practice of selling tobacco to minors, in violation of Michigan statutes."

The council also condemned "the practice by which minors are able to procure beer and liquor, whether through direct illegal sale or through devious channels of accommodation."

Whitehead said the council would contact Birmingham Police Chief Ralph W. Mosley to see if it could aid police in the enforcement of the statute.

SCHOOL officials also have been concerned over smoking by teenagers, especially on the junior high level. School board policy in Troy forbids smoking by students on school grounds but there is no city regulation prohibiting smoking by minors.

Make a list of those "don't needs" today. Dial MI 4-1100 and a Classi Lassi will help you.

This & That

can't sustain a white-hot following until the fall of 1964 without using up all your political ammunition. Pause a bit and be refreshed!

U. S. Sen. Teddy Kennedy is to be the main speaker at the Nov. 15 Oakland County Democratic Congressional dinner. Tell us, Teddy, how you are getting along "getting more for Massachusetts." (Or can a candidate say this only if his brother occupies the White House?)

A dime is a dollar with the taxes taken out. The mark of a great lover usually is lipstick.

The H-bomb will never determine who is right... only who is left.

General Thomas H. Power, head of the U. S. Strategic Air Command, gave testimony to the Senate Committee on that recent test-ban treaty—testimony that argues Russia's explosions of 50-megaton bombs every 15 days, as well as the U. S. defense communication's system becoming useable. Power opposed the treaty because he wants the U. S. to explode big bombs in order to develop methods of countering Russia's ability to weaken our defenses.

Now that the United States has agreed to sell Soviet Russia a whole lot of wheat... do you think that there is even a grain of wisdom in the deal?

Detroit's police commissioner recently stated that "criminal hoodlums" milk at least 150 million dollars from the area, through various business and "other" activities. Indeed, that's quite a milking—are there any sacred cows in the pasture?

"It reported from England that Soviet Russia is getting tired of supporting the Communist regime of Cuba's Fidel Castro. Costs the Russies over 2 1/2 million per day to keep that be-whiskered despot in cigars and matches, maybe. Well, "the way of the transgressor is hard" and he who would dance must, of course, pay the fiddler—and that fellow Fidel surely knows how to fiddle.
