Students at Barnum Present Annual School Variety Show

By JEAN GIBNEY
Special Writer

Against a backdrop of fall scenery painted by students and put into final form at 9 p.m. the night before the show by faculty members, Mr. Staron, Miss Faust, and Miss Harrington, Barnum students romped through nine varied acts for an attentive student audience Oct. 29th.

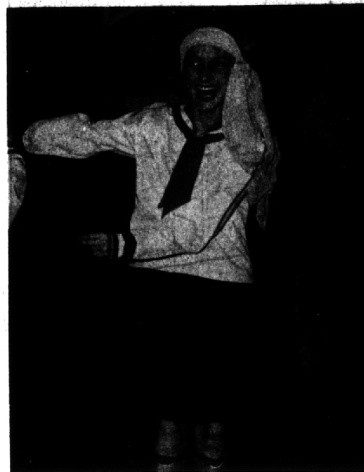

An master of ceremonies for the variety show, Bob Handley kept the show moving. The colorful production opened with three members from the Continental Dumbo players, Steve Mathews, Bill Rutherford, Pete Lewis and Mike Glossop. Sarah Winters and Debby Kuhn presented a piano duet and Karla Diechman performed a graceful Ballet.

Cathy Slusser, dressed as a Parisian artist, pantomimed "I Love Paris." Bruce Purvis demonstrated his musical talent by playing "Moon River." Robin Whitley has the audience looking twice at his comical impersonation of J. F. K. Bill Whitley entertained the audience with folk singing.

Dave Hollingshead and Robin Whitley sang "There Is a Barnum in the Town," to the delight of the Barnum Student audience.

NO VARIETY show would be complete without a charleston, and this one was no exception, as Peggy Christiansen, Jane Bement, Janice Poplack and Judy Tower closed with "Has Anybody Seen My Gal?" There's something new in the industrial arts department this year. The students in the seventh through ninth grades are studying American industry by writing term papers on its own industry.

In the near future the eighth graders will be introduced to a mass production unit. After studying this idea, they will mass produce a project of their own choosing. In addition, individual students are carrying out projects of their own. Barnum International Club began their official business of the year at their Oct. 15th meeting. Officers elected for this year are Margy Warnock, president; Becky McCullough, vice president-treasurer;

A VARIETY show is usually fun for actors and audience alike, and the annual Barnum variety show, presented by students of the Junior High, was no exception. Featuring comedy, singing and the Charleston, the show attracted the attention of all. Costumes were as lively as the acts themselves as one Barnum student demonstrates while going through her routine.

Julie Clark, secretary; Dee Ann Kincaid, historian. Committees were chosen to take care of the club's bulletin board and to help plan activities for the club's program.

Plans for the future include correspondence with a school in Japan, visits from foreign exchange students and an International Club dinner in the spring. Membership is open to students in all three grades. The membership fee is \$1.00.

Seaholm Chooses 2 For Field Service

By TRISH YARGA
Special Writer

With Field Day just a memory of excitement and joy, Seaholm students are back in the swing of their usual school schedule. Term papers are being prepared, clubs are being organized, dances are being planned and study continues. Everything is back to normal.

On the road to presenting a successful assessment, the Birmingham United Nations Association held a meeting Oct. 30. After two hours of constant debate, the members selected the five major topic areas to be discussed at the mock General Assembly in March.

Delegates will argue the points of the World Court decisions, the question of Southern Rhodesia, the removal of troops from South Korea, the issue of Yemen and the question of Viet Nam. During the coming meetings, members will gather information on these areas and form the policy of their country for presentation in the General Assembly.

KATHY KENNEDY and Betsy Griffith have been chosen to represent Seaholm on the American Field Service program this year. The finalists were announced following a final screening Oct. 28.

Their applications will be sent to the AFS headquarters in New York along with health reports, personal statements and records, extensive recommendations and pictures of the students. There the applications will receive further consideration before a final decision to study abroad can be reached.

Celebrating Halloween, Seaholm-ites attended "The Witches Wobble" Oct. 31 in the Maple Room. The dance was sponsored by the Birmingham merchants. Music was supplied by "The Jaguars".

RESULTS OF THE 1968 Advanced Placement Examinations were announced by Mr. Wagner recently. The tests were given to 29 Seaholm seniors during the week of May 12-19, 1968. Examinations were taken in English, biology, history, mathematics, Spanish and chemistry.

The following received credit: at Michigan State, Patricia Kough and Hyla Clark got nine and three hours at credit for American Thought and Language, based upon their high scores in English. At Dartmouth, John Weston was given two semesters college credit in biology and he is exempt from one semester of distributive requirement in Social Science. Ken Mackenzie was awarded credit in placement in mathematics at the University of Michigan. Claudia Kesler received placement and credit in English. Michael Jochim was honored in mathematics and biology.

Marilyn Dick, Charles Sutherland and Michele Roberts were awarded credit in English. Edward

Weller and Jeffrey Walker received placement and credit in mathematics. George Ward and Howard Shorter got placement and credit in chemistry. Maria Savonuzzi was awarded placement and credit in Spanish and English. Judy Frey is exempt from History 203 - 204.

Retiring? Get more "life" out of your life savings!

When you retire, you are faced with the problem of providing an adequate income during the remaining years of your life.

You could invest your capital in "safe" securities and live off the interest. But you may be forced to dip into capital to supplement the interest these securities provide.

This brings up another, more pressing problem. How do you make sure you will not outlive your capital?

If you invest in a Manufacturers Life Annuity, you can use your capital safely to increase the income you receive. These annuities scientifically use both capital and interest to provide worry-free income as long as you live. If you are 65 when you buy your annuity, your annual income could be as high as 9.2% of the amount you invest.

Annuities are available in many forms. The Man from Manufacturers can explain the advantage of each—and help you choose one to fit your needs. Call him today.
