FLYING TRIPS to New York

were made by two Chalmers Lake couples last week.

The Robert Forshaws of Lakewood Road left last Sunday and returned last Wednesday. While in New York they combined business (Forshaw attended a frozen food convention) and pleasure.

Literally a flying trip was made last Saturday by the Gene Bordinats, also of Lakewood Road. They flew in for a party and back the same day.

Getting settled in their new home on Forest Way in Wood Lake Hills are Mr. and Mrs. Lawrence Dickelmann, Jr., and their daughter, Dianne, 8. The Dickelmans are not newcomers to the area. They were former residents of Blanford Road, Glencoe Estates.

ANOTHER NEW family is the Richard Danno who have settled on Fairmont Court in Knob Hill. The Danno family which includes Diana, 16 and Gerri, 13, are new to the Bloomfield Hills area having come from Annandale, Va. three months ago.

Mr. Danno is executive vice president of the Automobile Club of Michigan and the Detroit Automobile Inter-Insurance Exchange.

Arriving today for a week end visit with the Danno family will be Mrs. Danno's brother, Joseph W. Stout, Jr., from Arlington, Va. He is en route to California but will stop over for a visit with his family and perhaps some of his former University of Detroit classmates.

"BE PREPARED." Mom and Dad because Girl Scout calendars went on sale this week. The young citizens were making the rounds and asking you to "Be Prepared" to dig down and help this year's drive.

The program of the Monday, Nov. 18, meeting of the Bloomfield Hills Junior High School PTO, will be devoted to an explanation of the guidance program within the Junior High School.

Ted Kevin, guidance counselor at the junior high, will conduct the program and continue the explanation of the relationship between the child and school that was begun at the open house in October.

The theme of Mr. Kevin's talk will be that guidance is no longer a frill. He will describe the testing program and explain how the tests are evaluated.

The second part of the program will be conducted by Dr. Walter Ambinder who is director of the Wayne University-Bloomfield Hills learning laboratory. Dr. Ambinder will briefly describe the major facilities and services and tell how they are used to benefit the students.

A question-and-answer period will follow each discussion.

CAPREX FOR HAIR OR SCALP

HAIR-HORMONE

Preparation containing Amino Acids from England

CAPREX is the result of modern research into the protein, chemical and other biochemical aspects of hair growth. It was designed specifically to supplement the hair's supply of amino acids which make up the protein content of the hair. The formula containing hormones and 18 amino acids can penetrate the scalp, reach the hair roots and build itself into the hair structure. CAPREX helps condition and protect healthy hair and scalp, checks dizziness and in chronic tired cases improve or restore in 60% of the cases dandruff and itching scalp. Women users also have found CAPREX good for hair that needs help because of excessive use of bicarbonates, permanent waves, teasing and tight rolling. CAPREX has kept English hair, beautiful and scalps healthy for years.

CAPREX is the discovery of F. V. Wells, one of the founders of the British Society of Cosmetic Chemists. CAPREX was familiar to American travelers in England but until now was unobtainable here.

Special note on thinning hair: If male pattern baldness (due to hereditary factors) is the cause of hair loss, CAPREX can't help; no formula can prevent loss of hair due to genetic influence. But why lose hair because of neglect or improper care? What CAPREX can and does do is supplement the hair's protein supply and works with Nature to help assure the ideal environment for the growing hair.
