

## Hosiery Is 'Smart' Gift

### Fossil Experiments Interest Children

One of the most fascinating of science hobbies is the collection of fossils that tell the dramatic story of ancient life on earth. Book-Lab introduces the young scientist to experimental techniques of fossil hunting and collecting by means of experiments with 12 fascinating hand-picked fossils gathered from all parts of the country.

In addition to a highly-illustrated 48-page book, the lab also contains a 5X magnifying glass, cement, tweezers, pointed tool, micro-slides, brush and chemicals for highlighting fossils.

Smart Santas will get a toe-hold on Christmas cheer when they give stockings to the fair sex.

A box of super-sheer hylons combines flattery with luxury in making a sure-winner gift.

Be sure, of course, to take height into consideration and choose short, medium or long lengths in your lady's size.

If you know her shoe size, the saleslady's chart will determine her stocking size.

FOR THE gifter who likes novelty and the unexpected, there is a raft of hosiery news. Knee-length stockings, for instance, are still gaining popularity in all quarters and will please younger women in

any of the argyle, striped or textured patterns you choose.

Stretch stockings solve the size problem with small, medium and large models that eliminate the necessity of more precise knowledge.

Dear St. Nicholas:

These are the things I want. A E-Z Weaver, some sweatsocks, and a skrit red and gray plaid. And a Thmbalena and Wardrobe. Six three quarter blouses. Butting Beauty Vanaty. Yertle the turtle. McElligot's Pool Scrambled Eggs Super. And to think that I saw it on Mulberry Street.

Love, Georgette Koury
