NEW Fingertip Controlled HUMIDIFIER

operates on
less than 1/2c per day!

We all know the benefits of adequate humidification; how it improves health, protects furniture, and saves fuel. The unique operating principle of the Dramatic humidifier gives you all these advantages with the highest moisture output at the lowest operating cost... LESS THAN 1/2c PER DAY! And you can dial the desired humidity by means of a Honeywell humidistat that can be placed anywhere in the home for convenient, controlled humidification. The Dramatic utilizes a polyurethane foam evaporating pad on a motor driven soked drum which rotates in a pan of water. Calcium deposits are absorbed by the pad—eliminating mineral dust in the air. When the pad becomes filled, it is easily replaced. The Dramatic will supply adequate humidification for areas up to 3,000 square feet.
