IF CALLING the folks back home has been only an occasional treat, why not make it a regular weekly event... at a time most convenient for you? More and more people are taking advantage of the longer Long Distance rates on many calls within Michigan. During the daytime, you can make a three-minute station-to-station call to anywhere in Michigan for a dollar or less. After 6 p.m. weekdays and all day Sunday, rates are even lower—70¢ or less up to 9 p.m. And after 9 p.m., every day, you can call for 50¢ or less. Excluding taxes, of course. Take advantage of these low rates by calling your Michigan relatives and friends often. No doubt about it, Long Distance is the next best thing to being there.

THERE'S MONEY IN A PILE of old phone books. That's why we ship mountains of old directories back to the paper mill. They're reduced to pulp once again, then made into new paper for future Michigan Bell telephone directories. We salvage about 3 million old directories every year—enough to fill a 76-car freight train to capacity! This behind-the-scenes operation saves us a considerable amount of money. And it's just one of the many ways all of us at Michigan Bell work to keep expenses down so we can continue to provide you with telephone service that's high in value, low in cost.
