

Memorandum On Shirtwaists

Memo from one gal shirtwaist collector, who has been behind the fashion scene, to other fanciers of crisp cotton shirts:

Sunny little prints go all over the place. With good reason. The new shirts are styled so they stay jiminney fresh all day.

Smart girls know that fresh, crisp cotton (and these are all cotton) turn a man's thoughts from spring to her. So gather a drawer full.

There is such variety. Crackly seersuckers and sparky Liberty Lawns, and spiffy Dovers. They're

popping with spring colors — big flower prints, tiny nosegay patterns, and school girl stripes that are cool as mint.

And note, please, that this cotton collection is tailored with feminine willingness. Pert collars look neat open or closed. It's all done with tiny stitches you can barely see.

HERE'S ONE OF the pretty spring prints in an all-cotton shirt collection by Lady Hathaway. Career girls, as well as other lovers of trim, truly wearable clothes, are especially addicted to the versatility of beautiful blouses.

Sportswear

Sportswear takes its cue from elegant sailors — middy blouses, drawstring jackets with built-up hoods, bell-bottom pants are every-

where. Pants are also in the news with straight-line trousers, very short shorts and culottes. Wrap skirts still lead the pack, but the pantskirt is coming along as a separate, and in suits too.
