These youngsters have been aptly named "Grass Root Ambassadors" and in the past years have proven valuable in the promotion of world peace and world understanding.

come a major contributor to these projects since its inception in 1950.

The amount of good the program has contributed can only be counted in bits and pieces when area women are privileged to listen to some of our young people returning from overseas and telling about their experiences. Spark-plugging this interest is Mrs. F. G. Garrison, current president of Michigan Division of WNFGA. Mrs. Garrison is also on the 4-H Council.

Cancer Society Conducts Drive

The American Cancer Society's 1963 Crusade will reach top month Monday evening when 30,000 volunteers in Oakland, Wayne and Macomb counties conduct a house-to-house campaign.

They will be part of an army of two million volunteers throughout the nation who will carry the society's education and fund-raising message directly to the nation's thresholds.

More than 40 million copies of a lifesaving leaflet, especially prepared for family use, will be distributed by the volunteers, in the greatest educational drive in the history of the society. Nearly one million will be distributed in the tri-county area.

U. S. REPRESENTATIVE John D. Dingell, general crusade chairman for the Southeastern Michigan Division, pointed out that while it is now possible to save at least one out of two persons who develop cancer, only one of three is being saved.

"If present rates continue, about 88,000 men, women and children will die of cancer this year, who might have been saved by earlier diagnosis and prompt treatment," the congressman said.

Because of this unnecessary loss of life, the first goal of the 1963 crusade is to get more people to doctors in time for early treatment, he explained. An annual health checkup is a person's best protection against death from cancer.

SECOND GOAL of the crusade is the raising of funds for research. Said Dingell:

"Only through research can we

hope eventually to save the one-half of those who develop cancer who cannot now be saved. There is new hope in the scientific community that cancer can be eliminated as a threat to life. New knowledge of cancer is piling up at a rapid rate, but increased funds are greatly needed to keep this knowledge building toward eventual solution of the cancer problem."

Riding for Culver, Over Weekend

Cadet Rick Olsen (left), son of Mr. and Mrs. Richard M. Olsen of Marblehead Drive, Bloomfield Hills, and Cadet Tom Bachman, son of Mr. and Mrs. William B. Bachman, Jr., also of Bloomfield Hills, will be among those

riding Saturday night at the Open Hunt Club show marking this year's annual Culver Night. Dinner will precede activities in the ring, which will be followed by a sock-hop honoring the young visitors.

Headed for Night in Tahiti

Everything Tahitian but HMS Bounty will turn Oakland Hills Country Club into a Polynesian paradise Saturday night when the annual spring dinner dance of Christ Child Society takes place.

Palm trees, native masks, bamboo drops and colored lights will make the 200 expected guests forget that suburbia is just around the corner.

CO-CHAIRMAN of the event, Mrs. Robert Mahler, Woodwind Drive, and Mrs. Frank Gagner, Kingsmill Drive, together with

their committee, Mrs. Lee Embrey, Mrs. James Stone and Mrs. Edmund T. Nolan, have planned a buffet dinner and music by Jerry Richardson's orchestra.

While the major decorations are being executed by a professional firm, there is one do-it-yourself project afoot.

Forty pineapples are stashed away, at this moment, in the recreation room of the Edmund Nolan on Hamilton Blvd. Between now and Saturday night, vivacious Mary Nolan and her "pineapple committee" will con-

vert the prickly fruit into attractive centerpieces for each table.

THE SPIKY LEAVES must be cut off and saved to make a leafy ring on which a pineapple will be centered. Next, the fruit must be scooped out enough to hold a tall candle. Then, leaves, fruit and candles must be transported to the club and set up.

But, that still leaves 40 pieces of pineapple back at the Nolan's. We suspect that, for some days to come, fresh pineapple chunks will be a feature on their menu.

Gamma Phi Beta

Birmingham Alumnae Association of Gamma Phi Beta Sorority will meet Monday, April 22, at 8 p.m. in the home of Mrs. Robert Thomas of Huntington Woods. Co-hostesses will be Mrs. Jerry Johnson.

Following dessert, Robert Blis, landscape architect, will speak on "Landscape Design."
