

### Easy-care Dining

You can dine al fresco with ease by backdropping your dinner against a cloth of carefree plastic. This dainty one resembles eyelet work yet is stain resistant and can be spot cleaned by a swipe with a damp sponge.

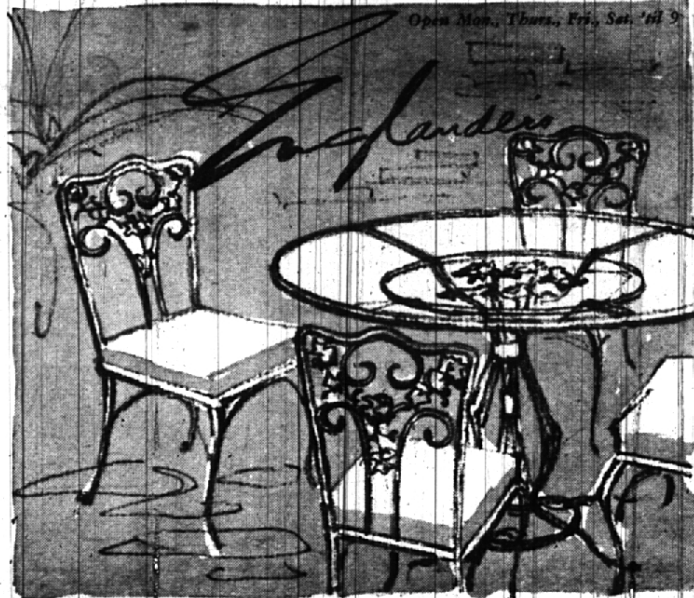

### Wrought Iron Adds Decorative Touches

For the home remodeler, the use of wrought iron as room dividers, planters and vases gives a decorative touch to a small room.

It adds more roominess and a freer circulation of air as well as lending a touch of elegance to the interior.

### Useful Hemlock

Sitka spruce and west coast hemlock are so strong in relation to their weight that they were widely used for airplane construction in both World Wars. Hemlock now is used as a construction lumber where its great strength is important, but it is also used as interior paneling and exterior siding because of its great beauty and its lovely champagne coloring.

### IT'S NICE TO FEEL WANTED "Woodard" . . .
