

### Leisure Living

Custom comfort is built into this smartly styled, adjustable-back chaise. Innerspring construction of seat and back cushions, traily-patterned, fabric-supported vinyl zippered upholstery covers and sturdy construction make this handsome outdoor furniture unit a welcome addition to any garden or patio setting.

### How to Plan Space

Would you like some tips on planning space in your home? Then write for new, free booklet on Ideas in Space to Dept. PR, West Coast Lumbermen's Association, 1410 S. W. Morrison Street, Portland 5, Ore.

## Folding Doors Are Helpers

Homemakers who have undergone the common struggle of attempting to rearrange a room with a number of traffic-doorways are most enthusiastic about folding doors.

They no longer have to be concerned about which way the door swings.

AND, ANYONE who loves the space-saving features of sliding doors, but has been bothered by the doors sticking, will certainly appreciate these smoothly moving folding doors.

To beautifully accent or blend with any decor, the doors are now available in matchstick bamboo, vinyl plastic in a variety of colors.

## ASK FOR OUR LAWN COUNSELOR . . .

To help in answering your lawn questions. Thin turf? Fungus? Grubs? Weeds? We have the answer to all. No charge or obligation . . . come in or phone any time . . . Ask For Our Lawn Counselor!

### 10 QUESTIONS TO ASK YOURSELF BEFORE BUYING A RIDING MOWER

- 1. Is it safe?** Unique "Safety-Seat" on Toro's Red Rider stops the wheels, locks the blade the instant you get off the seat. Won't start if you're not in neutral. Rotary blade inside the cutter housing.
- 2. Does it do a good job of cutting grass?** Red Rider does. Toro engineers designed the rider around their famous no-clog "Wind-Tunnel" housing. It discharges clippings in a spiral air flow.
- 3. Is it fast?** Red Rider scoots around the lawn at speeds up to 4.8 miles per hour. Four and five hp. models.
- 4. Is it easy to operate?** Even teenagers control the new Red Rider easily. Its stick shift and variable-speed friction drive offer reverse, neutral, three forward speeds. Plus adjustable throttle, an automatic blade brake, single clutch-brake pedal, adjustable padded bucket seat and easy starting.
- 5. Will it mow a hillside?** Red Rider climbs hills like a mountain goat. Low center of gravity and sure-grip tires hug steep slopes. Terrace rollers and Anti-Scalp Dish protect uneven lawns.
- 6. Does it bag clippings?** Toro 25" Red Rider is the only riding rotary with the "Wind-Tunnel" housing that effectively bags grass and leaves. Puts an end to raking.
- 7. Is it easy to maneuver?** Red Rider has a short turning radius . . . gets into cramped spots, backs out. Takes up less than 3 sq. ft. in storage because it sits on its tail.
- 8. How about cost?** Red Rider costs a little more. Worth it. Built with heavy duty steel and designed like an industrial piece of equipment. Lasts longer.
- 9. Will it do more than mow?** Red Rider's attachments for other jobs hook up quickly, without tools. Bag grass and leaves, blow snow with a 42" blade. Use stowaway hitch to pull optional lawn roller or lawn cart.
- 10. Can you get service?** There's Toro service in every area in the country. And that includes right here.

## NEW TORO RED RIDER

See us about the Toro Red Rider soon. It'll make you mow more than a match for that large lawn. Or ask about the complete line of Toro walking and self-propelled power mowers, rotaries or reels. Mow First Class . . . go Toro. Costs a little more today, worth a lot more tomorrow.

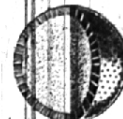

Give Your Lawn a

## QUICK GREEN and LONG FEED!

22 LBS. **\$4.75** 5,000 sq. ft.

Feed your lawn both ways—with one application of Greenfield Measured-Release Lawn Food. Part of its nitrogen is released immediately to give you grass a quick greening. Another portion of its nitrogen is in tiny particles, coated for slow, even release. This feeds your grass uniformly for weeks. Apply it this weekend.

Greenfield's Exclusive Timed Nitrogen Particle Module enters opening in coating to carry nitrogen out slowly, evenly.
