Wood Door Slides

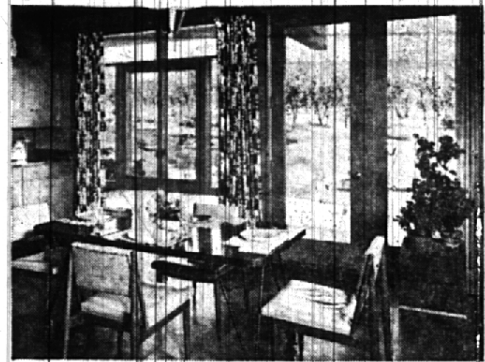

One of the newest products is a wood sliding glass door which can be used in new indoor-outdoor, all-glass walls. The wood frames will not sweat and have the highest insulating values. They will fit any decorative scheme.

Set Smart Party Table With Flowers

You can have a "picnic" planning a summer party every bit as pretty as a banquet.

Hot weather elegance is not a matter of slaving over a steaming stove all day long. It depends on simplicity—an easy casserole or barbecue specialty is perfect for the main dish.

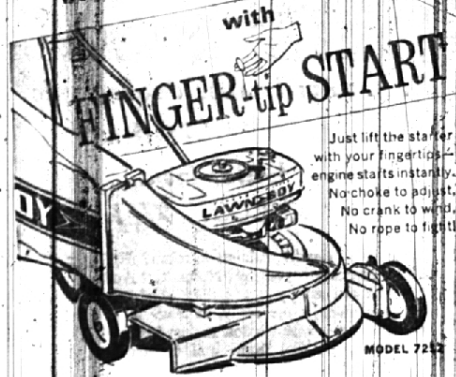

The drama is supplied by vivid colors in tableware, clothes, napkins and floral treatment.

Beauty Inside and Out

Create a new unity between indoor and outdoor living and you'll enjoy both more. This wide wall of glass brings the beauty of the patio and its surrounding grounds inside, adding new dimensions to interior rooms and creating a lasting mural that changes with the seasons—and in the summer months the patio and the kitchen-dining area merge into one big, airy "room."

SUGGESTED SUMMER party color schemes from leading decorators are combinations of bright blue and green or pink and orange. Others include yellow and deep green, or a stark white cloth with dark blue napkins and tableware.

The dishes, glassware of linens need not be your best. Good, bold, clear colors are available persistently in plastic, glass or baked enamel.

Floral arrangements to complement all of the suggested color schemes can be selected by any shop in the nation.

They not only will make your table bloom, but are wonderful, easy-to-shop-for hot weather gifts as they can be wired anywhere to blend with a friend's party decor.

For the table setting, FTD members suggest white gardenias and red roses in a blue composite dish. Pink and orange would take hot pink roses or carnations in a pretty basket.

For the yellow color scheme, try tiger-type (Rubrum) lilies and lemon leaves. The stark white and blue should be set off with a bowl of hard red anthuriums or pink roses in a stemmed vase.

Now, all that is left is to send out the invitations. You won't have to worry about the reactions. You'll be known as the hostess with the prettiest table in town.

Wood Treatment

Research is uncovering all sorts of treatments for wood. One chemical hardens wood, another makes it impervious to fire and still another makes it resistant to water.
