AS OUTLINED by the citizens committee reports, the community college would provide a two-year course for transfer to four-year colleges. Students could live at home and be within 30 minutes travel time of their campuses.

The college issue in Oakland County was delayed by a ruling of the attorney general that the Charleville School District, which is included in the Wayne County junior college district, could neither be included or excluded from an Oakland County district.

Establishment of the college district had to wait for new legislation to define the area, which could be included.
