All you have to do is take the Plymouth leading Chevrolet and Ford in the picture on the left. You take the testing company emblem off the door. You put the hubcaps back on the wheels. You ask the test driver to get out and you get in. Just like that, you have a "performance champ for a family car." You see, the Plymouth, Ford and Chevrolet that competed at Riverside, California, were not souped-up special racing models. On the contrary, they were standard production models with standard V-8 engines. The kind of car you'd see if you walked into a showroom on the spur of the moment. And if you go by the results chart, the Plymouth showroom looks like the one to walk into. (There were ten tests; Plymouth won eight.) This is a good-looking car with nice interiors and a nicer 5-year/50,000-mile warranty*. You can check on this whole conversation at your nearby Plymouth Dealer's.

At Plymouth's request, Nationwide Consumer Testing Institute purchased the test cars direct from dealer showrooms—a 1963 Chevrolet Impala V-8, Ford Galaxie 500 V-8 and Plymouth Fury V-8, all comparably equipped. They conducted every test and computed all results. See your Plymouth Dealer for illustrated Official Results Booklet.

*A Year Authorized Plymouth-Mopar Dealer's Warranty against defects in material and workmanship on 1963 cars has been expanded to include parts replacement or repair, without charge for related parts or labor, for 5 years or 50,000 miles, whichever comes first, on the engine block, head and internal parts; transmission case and internal parts (excluding manual clutch); torque converter, drive shaft, universal joints (excluding dual axles), rear axle differential, and rear wheel bearings; provided the vehicle has been serviced at reasonable intervals according to the Plymouth 3000-Cent Care Schedule.
