Swap that crabgrass for a better lawn

With just one application of fast-acting CLOUT, bring the

march of crabgrass across your lawn to a dead stop.
Within a week, you can sow Scotts seed to repair damage already done. (Don't even remove the dead crabgrass. It makes a good lodging for seed.) Apply TURF BUILDER® on the same day you seed, and you assure new grass of the balanced diet it needs to thrive.

Do all three jobs confidently and easily with the accurate Scotts Spreader. Scotts guarantees your results!
