

# Have a Safe Vacation!

So you are going on your vacation? It's late in the summer, but it is also the height of the season. More people may be than on the highways at this time than earlier or later.

So before you go—days before—check your car. Do more than just fill the gas tank and give the tires a kick. Take it to a good mechanic and get the motor, brakes, lights, turn signals and windshield wipers all fixed up. Get the wheels packed and chassis lubricated. Check the steering.

**STUDY YOUR ROUTE** with the family. Decide what you want to see now to avoid the arguments and waiting in the car that are so hard on the driver. He needs all the "emotional plus" possible.

Plan to move on the faster roads when you have a long distance to go. Drive on local roads when you want to see the sights. Don't get all die along on the super highways, exasperating a string of other cars that may have a schedule to make.

## Local Highway Costs Total \$334,200 A Year

(Special to the Eccentric) How much are passenger car owners in Birmingham contributing, via gasoline and other auto taxes, toward the cost of the 41,000-mile national highway system? How much extra have they been forking up since the increase in the tax rates?

The question of who has been doing the paying and to what extent, was brought to the fore recently by Congressman Oliver P. Bolton of Ohio.

He protested the statements carried on the signposts that have been erected along the stretches of highways under construction through the effect that the financing is being done with Federal funds.

**THEY SHOULD** state instead, he declared, that the bills are being footed by the millions of highway users across the country through the special taxes they are paying on motor fuel, on tires and on other equipment.

For the average car owner in Birmingham, traveling 10,000 miles a year and registering about 14 miles to the gallon, the annual cost is approximately \$30, according to figures released by the Bureau of Public Roads.

**LOCALLY**, with the number of cars now in use, the total tax comes to \$334,200 a year. It goes into the Highway Trust Fund.

Not included in this amount are the state taxes levied on motorists. The highway system is being

A tourniquet should be used only for severe, life-threatening hemorrhage that cannot be controlled by other means.
