

There is nothing very ordinary about an Alside Home.

Every Alside Home is equipped with central air conditioning. That's hardly ordinary. Every appliance you can think of (seven of them, including a refrigerator-freezer) is built in. That's hardly ordinary. Every home has a 20-year baked enamel finish. That's hardly ordinary. As we said, there is nothing very ordinary about an Alside Home.

See our special Sunday supplement in the Detroit News on September 22 and visit your Alside Homes Display Center—which opens the same day—at Northland Center, Number One Providence Drive near Joseph L. Hudson Drive, just south of Nine Mile Road. Come early, we know you will want to linger.
