**Meadowlake Hosts Visitors From Abroad**

The week end of Sept. 7 found a number of families in the Meadowlake Farms area doing a repeat performance of "Operation Friendship."  
As University of Michigan alumni they again opened their homes to entertain foreign students. This is not a new venture with them as they have played an active part in these roles for at least a half dozen years.

**At Home**

Following her marriage Aug. 17 and a wedding trip through Canada, New York and Vermont, Mrs. Denis Lynch, with Mr. Lynch, is at home in Cleveland, O. Formerly Micaela Therese Vise, the bride is the daughter of Mr. and Mrs. Harry H. Vise of Normandy Road and her husband is the son of Patrick Lynch of Highland Park and the late Mrs. Lynch. The couple repeated their vows at a double ring ceremony in the Shrine of the Little Flower.

**It's Slack Season in Baking**

By DICK WEST  
WASHINGTON (UPI)—The adhesive quality of the human brain is altogether marvelous. In some respects, it functions even better than flypaper.

make certain they were done. If I do say so myself, the crust was perfect. The shape, however, was another matter. If anything, they were

more baggy than before. Pending further research, it is currently my belief that the baking instructions the Florida lady found were intended for frozen slacks.

**You Don't Have To Bake These Slacks!**

**YOU! Trim Man in Slacks**

Take this item that I ran across the other day in Clothing Care News, a publication of the National Institute of Dyeing. It told about a lady in Florida who bought a pair of slacks and found attached to them the following instructions:

"To maintain perfect shape put in cold oven and bake for eight minutes at 250 degrees."

There was no particular reason why that item should have stuck in my brain, but I haven't had a moments peace since I read it.

No matter how hard I try to get my mind on something else, all I can think about is baked slacks.

Does baking really preserve their shape? If so, what kind of pan should you bake them in? And how often should you bake them? And which is better; a gas oven or an electric one?

In desperation, I took the item home and showed it to my wife, who wears the slacks in our family. "Oh, that's ridiculous," she said.

"Why?"

"For something like that the oven should be pre-heated to 300 degrees."

That was my wife's idea of a joke. The truth is, she never baked a pair of slacks in her life. And if she did she probably would burn them.

My wife makes good pastries but she's a lousy fabric cook.

One night, when I could stand it no longer, I got out of bed, took a pair of slacks from my wife's closet and carried them into the kitchen. Then I folded them neatly into a pile and placed them in the oven.

After eight minutes at 250 degrees, I poked them with a fork to

The revolutionary new idea in slacks is Sansabelt®, the patented, hidden waistband designed in France. Seems to make you look taller, slimmer—trimmer, as it flattens and flatters your waistline. Gives you comfort and style you never thought possible—without belt, buckle or bulge.

THE FRANK Wickham's of Meadowlake entertained a man from Africa, Apollinary Mango, who is a public health master. Others who took part in the operation were the William Joneses of Halyard who hosted a gentleman from Japan; the Vic Perini's house guest was from Brazil; the Jac Suydams opened their home to a gentleman from Mexico; the J. Stewart Wilson's entertained two young men from India; and the Jack Lyons family of Halyard Road were pleased to have Miss Karin Butke of West Berlin, Germany as their guest.

As a climax of the week end, Mrs. Frank Wickham, who is quite active in American Field Service, planned a pot-luck supper for the entire group on Anchor Island.
