MICHIGAN MIRROR

‘Cut Govt. Spending’ Is An Oft-Heard Tune

By ELVA G. WICHE

Michigan Press Association

The call for President Johnson to implement his 1966 campaign spending cuts is a familiar one. 

However, his recent budget is not what it seems. True, Sen. John Stennis, D-Miss., said the new cuts were designed to show the public that he was serious about cutting spending, but the cuts amounted to only a fraction of the total budget. 

The proposed cuts, which would save the government $105 billion over five years, are far too small to make a significant difference in the federal deficit. 

The cuts are necessary, however, to prevent the government from running up its credit cards while the economy slows down. 

The budget cuts are not enough to stop the government from running up its credit cards while the economy slows down. The cuts are necessary, however, to prevent the government from running up its credit cards while the economy slows down. 

Delay Hearing On Request For Rezoning

A public hearing on the request to rezone the land was held last Tuesday, but the meeting was adjourned due to a lack of quorum. The next hearing will be held on Monday, May 19, at 7:30 p.m. at City Hall. 

The hearing was held to determine whether the proposed rezoning would be beneficial to the community.
