Gordon Stanley "Mickey" Cochran, new manager of the Detroit Tigers, who may become a resident of Birmingham, will be the principal speaker at a Boy Scout "jambo" to be held in the Community House Friday, Jan. 26. More than 900 persons are expected to attend the banquet which will be followed by Boy Scout demonstrations, songs and the awarding of the Birmingham Eccentric medal to the outstanding scout of 1923.

Petitions are expected within a few days asking the City Commission to provide for an election on the question of whether the sale of beer and wine should be allowed for consumption in restaurants and beer gardens. The number of signatures needed to force an election would be 20 per cent of the number of voters who cast a ballot for secretary of state in the last state election.

For the fifth consecutive year, the activities of Birmingham Boy Scouts in 1954 will be in charge of Howard D. Crull, principal of Barnum School. Appointment of Mr. Crull to serve again as Boy Scout commissioner was announced by Shelton Wright, president of the Boy Scout District Committee, at the annual meeting Friday evening in the Community House.

DETROIT EDISON
SERVES

Detroit Edison and the individual men and women who make up the company participate in a wide variety of educational, social and civic affairs.

It is a common practice for Edison employees to serve during business hours, and in what would otherwise be their leisure time. They are on boards of education, act as special instructors and visiting lecturers in many schools, accept appointive and elective offices. They are active in churchwork and charities.

Many of our engineers, staff and management people serve at state, national and international levels—in the development, for example, of electric power facilities and systems overseas.

Our company has a broad program of educational assistance. There are grants to Michigan schools of higher learning; scholarships—44 of them currently—for deserving students; the support of science fairs; the sending of student delegates and teachers to conferences on peaceful atomic development.

In the belief that good government depends upon the willingness of all to accept the responsibilities of citizenship, the company also has a non-partisan program of political education for interested employees.

The taxes Edison pays help build and maintain essential community services, schools and colleges. During 1962, for example, the company paid \$67-million in taxes to federal, state and more than 400 local governments. In many areas of southeastern Michigan, Edison is the largest single taxpayer.

We like to give our support in these many ways, by engaging in and encouraging others to participate in community work for the good of everyone.

Sincerely,
Walker L. Cisler
