Youth Problem Emphasis Hit

By SAVILLA SAGAN

The 1983 Michigan Youth Study was conducted by the Michigan Department of Social Services and the Michigan Institute for Mental Health. The study included a survey of 2,000 youth, aged 12 to 17, from across the state. The results of the study revealed that youth face many challenges today, including substance abuse, mental health issues, and poverty.

The study also found that youth who experience multiple adversities, such as poverty, poor mental health, and substance abuse, are at a higher risk for adverse outcomes. It is important for society to address these issues and work towards creating a safer and more supportive environment for youth.

In Fifi Township

Record Slight Rise In Traffic Accidents

By BYLE WATERS

Traffic accidents in Fifi Township have increased by 10% over the past year. This increase is concerning, and it highlights the need for continued efforts to promote safe driving and reduce traffic accidents.

The increase in traffic accidents is not a new trend. It is part of a larger pattern that has been observed in recent years. To address this issue, the Fifi Township Police Department and the Michigan State Police are taking steps to prevent accidents and promote safe driving.

The Police Department is working to increase public awareness about the dangers of driving and to encourage safe driving behavior. They are also partnering with other organizations to provide education and resources to help prevent accidents.
