This is the exact model Plymouth that just beat Ford and Chevrolet in 10 out of 10 tests at Sebring.

If it doesn't look like a racing car, that's because it isn't one. It's a showroom car with standard V-8 engine.

And the tests were of "things you buy a car for" - acceleration, handling, braking, gas economy. Besides that, of the three cars tested, Plymouth costs least, and carries the only 5-year/50,000-mile warranty*.

There's a Plymouth showroom not far from you.
