

*modern facilities  
and people  
with know-how*

to  
**SERVE YOU**

Our facilities are big . . . we employ a big number of people . . . we make a big effort to satisfy you. We are big in sales . . . and big in the servicing of cars. We'll admit . . . there are two things which are small . . . the car we sell . . . and the distance between our dealership and your home. So climb into your big car . . . drive a small distance . . . to a big dealership . . . that will sell you a small car . . . at a small price.
