This and That

(Continued from 3-A)

like Lyndon Baines Johnson can get so much from a subversive and vote-grasping majority of his own political party, usually with quiet basic foundations of liberty and freedom.

overthrow their "masters," and once again endeavor to achieve the right of self-government, with its basic foundations of liberty and freedom.

DO YOU QUESTION this cycle of "from bondage to liberty and freedom and then back to bondage?" Then read the historical record.

Without self-discipline, self-reliance and a willingness to accept life's challenges to achieve personal survival, liberty and freedom are but transient episodes in mankind's affairs.

How tragic that today's educational systems fail to impress upon youth the truth learned by past generations of human beings!

The United States is the most affluent nation that ever existed... and, unfortunately, with this affluence comes the danger of complacency, indifference to the need for practicing the art of dutiful and responsible citizenship. If our men and women gave but a fraction of the time they give to recreation, to fun, to "having a good time," to the need for being GOOD DEFENDERS OF FREEDOM, LIBERTY WOULD BE SAFER!

Connolly's Jewelers

Dear Mr. Fox:

As you will no doubt remember I was in yesterday and purchased a 40-piece set of Stainless in the Frostfire pattern. No, this is not a complaint, but rather the opposite.

I had never been in your Birmingham store before, but ever since I was a little girl, and that has been a long time, I have heard nothing but "Connolly's" for jewelry. In fact the Pontiac store, as far back as when it was Schaeffer's was my parents favorite store. The Roy Connolly's were personal friends of my parents, as were the Harold Hacketts'.

Now, that has no bearing on the case, so to speak, but I just want to tell you that I appreciate being treated royally, as I was yesterday. I realize that the purchase that I made was not an expensive one, but my husband and I are celebrating our Silver Wedding Anniversary tomorrow, and that was the exact gift that I wanted, everyday silverware. The lady at the counter was the perfect hostess, and was so very sweet. She showed me patterns of sterling that I was interested in seeing, while you wrapped my package, and she was so gracious. I dare say she does look familiar to me, perhaps she used to be at the Pontiac store many years ago.

I just want to say thank you for the hospitality, and tell you that it is very rare that you are treated royally in any store anymore, and I appreciate your kindness.

Sincerely,
Patricia Hill
