MICHIGAN MIRROR Cities Complicating Issue Of State Income Tax Levy

By ELMER E. WHITE
Special Writer
No firm indication has been given whether Michigan's Legislature will be asked to seriously consider a state income tax program in 1965.

Original proposals call for the creation of 50 new lakes, most of them in the southern third of the state where the heaviest concentration of population lies.

Man-made lakes are not unknown in Michigan but those which exist have generally been built by private developers for specific landowner groups.

Conservation officials feel the heavy pollution and the fact that two-thirds of all fishing licenses are sold to residents in the lower portion of the state justifies starting the giant lakes plan in this area.

Man-made lakes are not unknown in Michigan but those which exist have generally been built by private developers for specific landowner groups.

Conservation officials feel the heavy pollution and the fact that two-thirds of all fishing licenses are sold to residents in the lower portion of the state justifies starting the giant lakes plan in this area.

AGRICULTURE CENSUS BEGINS NEXT MONTH
Plans for taking the 1964 census of agriculture in Oakland County were announced today by U.S. Bureau of Agriculture Director W. B. Perkins, newly-appointed census crew leader for the county.

AGRICULTURE CENSUS BEGINS NEXT MONTH
The job will be done in three stages. At the first stage, field enumerators will be mailed to farms in the county. Shortly after, questionnaires will be mailed to rural boxholders.

AGRICULTURE CENSUS BEGINS NEXT MONTH
For accuracy's sake editors have to be skeptical. One threw an item overboard because it was not used by a scientist as saying a bad cold can be caught 75 different ways. He said he knows better. His came at him from 120 different directions and all arrived simultaneously.
