

Chrysler Chief Appointed to Treasury Job

Lynn A. Townsend, of Orchard Bend, Bloomfield Township, Chrysler Corporation president, was named to the Treasury Department's U. S. Industrial Payroll Savings Committee to serve as chairman for the metropolitan Detroit area.

The appointment was made by Douglas Dillon, Secretary of the Treasury.

The committee, originally organized in 1963, comprises 32 of the nation's outstanding business and industrial leaders. It is charged with directing a national effort to stimulate sales of U. S. Savings Bonds through the Payroll Savings Plan.

In 1963 and 1964, the committee's responsibilities followed industry lines, with each of its members spearheading an industry-wide campaign within his own industry.

FOR 1965 the committee is being reshaped, with each member representing one of the nation's largest metropolitan centers, and each to be responsible for organizing a payroll savings campaign for his own market area.

In a letter to Townsend, Sec. Dillon said the committee "has established an enviable record in the sale of U. S. Savings Bonds in volunteer service in behalf of the nation. I am confident that you and the other members will continue in this tradition, and that your effective leadership of the payroll savings plan in your companies and communities will bring the committee to even greater records of accomplishment in the year ahead."

The committee is expected to be called to meet in Washington in early December to formulate plans for the new campaign. Sec. Dillon and other top officials will address the group at that time.

Federal Exams Set for Jobs in Data Processing

The U. S. Civil Service Commission has announced a new examination for persons experienced in the fields of automatic data processing.

The examination is needed to meet the ever-increasing demand for skilled personnel to program and operate the many large-scale computers found in Federal offices and laboratories in the Washington, D. C. area.

The examination covers the positions of digital computers programmer, digital computer systems analyst and digital computer systems operator which pay between \$6,650 and \$10,250, depending on the length, quality and type of experience shown by the applicant.

No written test is required. Related college study or training in the digital computer field may be substituted for some of the required experience.

INTERESTED persons should consult Announcement No. 348 for a detailed explanation of the experience requirements. The announcement and appropriate application forms may be obtained from many post offices throughout the country or from the U. S. Civil Service Commission, Washington, D. C.

Applications will be accepted until further notice by the U. S. Civil Service Commission, Washington, D. C. 20415.
