Getting into the swing of winter, more than 500 students showed interest in and attended an organizational meeting of the Berkshire Ski Club. Every snowy Friday, these students will board buses for an outing at Pine Knob Ski Resort where they will receive lessons from certified instructors. To climax the skiing season, two week end trips to Walloon Hills near Potoski, will be taken.

UNDER THE direction of Mr. Dunlop, two dances were planned by the Berkshire Student Council. The seventh grade party, an after-school affair, was Friday. For the eighth graders, a Christmas sweater hop will be held on Dec. 18. We have engaged the Centaurs from Groves for a band. On Dec. 9, in Berkshire's pool, we hosted the freshman team from Groves High School.

## An electric dryer puts sunshine in your laundry room

and a bright spot in your bank book

An electric dryer dries clothes evenly, like the sun—only better because electric heat is gentler, more controllable than the sun. Colors don't fade. Clothes stay bright. So does your bank book. Here's why.

Model for model, an electric dryer costs from \$20 to \$40 less than a gas dryer. And if you buy now, this lower price includes installation. So you save more, right from the start.

You also save in the long run . . . because electric dryers cost nothing for electrical repairs or labor, thanks to Edison's no-charge service. Based on manufacturers' repair policy premiums, this repair service can save you up to \$200 over a 10-year period.

And it doesn't matter where you buy your electric dryer, so long as you're an Edison customer. (This is the only no-charge dryer service offered by a utility company in this area.) Look into a modern electric dryer now at your appliance dealer's or Edison office.
