IF AIMING at 25 per cent class no matter what it thrift then so is mediocre education. We in the Bloomfield Hills system do the ideal and least aspirations for our children and their schools. Perhaps if Mr. Koester let himself get closer to them than his sniping position he would get over his negativism.

The support of free public education is the duty of all citizens, whether they have children to participate directly in the fruits thereof or not. Our school taxes go to ensure an educated and enlightened electorate and must not be considered too subjectively.

Resolution Draws Couple's Approval

To the Editor:
My husband and I wish to publicly express to David Zimmer and the Student Congress of Seaholm High School our complete

agreement with the resolution drawn up by them and sent to The Eccentric.

David's letter (Jan. 30 Eccentric) stated so completely our views on the reporting of teen-age activities that we have nothing to add, except to hope The Eccentric and other area newspapers will follow David's suggestions.

The story of the Student Congress action printed on the front page of your Jan. 30 paper was a start in the right direction.

committees certainly displays a bulldog tenacity of purpose. I hope he will bear with me while I attempt to elucidate on a point I believe he fails to grasp completely. Classes in the Bloomfield Hills School System are not limited to 25. There are as many as 35 to 50 in some classes.

However, there are also classes of between 15 and 20. As might be surmised, these vary from advanced foreign languages to advanced math and science to the other end of the scale to students with educational difficulties who need close supervision to facilitate achievement.

Thus, the "ideal" or "average" class load is termed "25".

IF AIMING at 25 per cent class no matter what it thrift then so is mediocre education. We in the Bloomfield Hills system do the ideal and least aspirations for our children and their schools.
