Engineered better...backed better than any car in its class.

A 1964 Chrysler is engineered better... backed better than any car in its class. This is fact. Provable. Demonstrable. For example:

Chrysler is the only car in its class with a one-piece all-welded body. Stronger. Tighter. Stays quieter years longer. It's also the only body that's rust-proofed in seven dips plus six sprays. Then topped off with brighter, harder acrylic enamels. Then floated on a torsion-bar suspension. Which makes it ride smoother and corner steadier.

Those are solid facts about just one Chrysler feature. An even better one is the engine and drive-train warranty.* It's the only one in its price class that lasts for 5 years or 50,000 miles. That's how confident we feel about the engineering that goes into every Chrysler.

There's no doubt about it. If you want more solid satisfaction when you move into a medium-priced car, Chrysler's your buy. Go try one at a dealer's, today. MOVE UP TO CHRYSLER

*Engineered better... backed better than any car in its class—5-year/50,000-mile warranty with this coverage: Chrysler Corporation warrants, for 5 years or 50,000 miles, whichever comes first, against defects in materials and workmanship and will replace or repair at a Chrysler Motors Corporation Authorized Dealer's place of business, the engine block, head and internal parts, intake manifold, water pump, transmission case and internal parts (excluding the engine oil changed every 3 months or 4,000 miles, whichever comes first, the oil filter replaced every second oil change and the carburetor air filter cleaned every 6 months and replaced every 2 years, and every 6 months furnishes to such a dealer evidence of performance of the required service, and requests the dealer to certify (1) receipt of such evidence and (2) the car's then current mileage.
