RID LAWN OF CRABGRASS
Crabgrass was widespread last year. Many thousands of additional seeds were produced which will germinate this summer doubling the amount of infestation. If this reproductive process is not stopped serious lawn damage may result. I recommend a crabgrass pre-emergence treatment be applied this spring. One application gives effective control all summer long. The cost is less than you can do it yourself. Additional lawn services include spring fertilizing, weed, clover and chickweed killing. By MARGARET BROWNING
Special Writer

Berkshire's yearbook committees have been formed even though the yearbook is nameless as yet. The sales will take place the first two weeks after spring vacation.

Miss Margaret Carter and Mr. Robert Rickard, the advisors, have helped students plan a book that will bring back memories in both sight and sound. Plans call for a record of Berkshire sounds to accompany the magazine.

ENID BRAUN will provide leadership as Editor. Steve Torok, Ron Musto, and Ellen Quart are working specifically on the record. The staff includes Jim MacDonald, Steve Byers, Ellen Gluck, Cindy Evans, Sue Lichtenstein, Marny Foster, Chris Burroughs and Florence Hughes.

Other members are: Jenifer Thomas, Ann Wilson, Nancy Bartlett, Karen Tooms and Janet Bolling.
