

# Mexican Boy Finds Snow Exciting

By ELLIE BLAUMAN  
MI 7-1465

The O. H. Tipton family of Arlington Drive—particularly 13-year-old Chuck—has been playing hard to get to see snow since Palm Sunday when Antonio Gilbert arrived by air.

Antonio, 15, has been on the go since his arrival as the Tiptons have taken him to Greenfield Village and the Henry Ford Museum, the Detroit Historical Museum, the Plymouth assembly line, Northland, Cobo Hall, Belle Isle, the Detroit Boat Club, to a bowling alley, and to Big Lake where the family cottage is.

He was also Chuck's guest in Mrs. Horshak's Spanish class at Berkshire School before the Easter vacation, giving the students a demonstration of his native tongue.

Mexico, and though Antonio's knowledge of English is limited the boys have no trouble communicating since Chuck (in fact, all the Tiptons) are able to speak Spanish.

Of all the exciting and interesting things Antonio has seen in his visit, the most memorable may well be his first experience with the snow we North Americans take for granted.

Unfortunately, he can't take any with him when he returns south of the border tomorrow, however, he will have the next best thing to show his family—the photographs taken by his hosts, the Tiptons.

A JILLION college people came home for Easter and a few of those seen around town were Tom Bollman, son of the Bertrand Bollmans of Beedmore Ave., Tom, a junior at Central Michigan University, was again active on the gymnastics team this winter.

Michael Schuck, a sophomore at

THE BOYS met two years ago when Chuck was a guest in the Gilbert home during a visit to

FOR BEST RESULTS ADD 160° WATER... FOR WATER THAT HOT YOU NEED AN

## ELECTRIC WATER HEATER

If you wash your clothes or dishes automatically, you should heat your water electrically. Why? For best possible results, automatic washers and dishwashers need 160° water and lots of it. Only an electric water heater can regularly give you water that hot without burning out.

And remember, the electric water heater you buy from any retailer in Southeastern Michigan carries Edison's one-year money-back guarantee of satisfactory performance. In addition electrical repairs, if ever needed, are free from Edison.

An electric water heater—one more of the electric appliances that help you get more out of life. They become even more economical to own as the cost of electricity continues to decrease. See your dealer or
