

County College Topic of B'ham Junior Women

A community college has been an important attraction to business and industrial development in other areas of Michigan. Mrs. James A. Cameron told members of the Birmingham Junior Women's Club on April 7.

Meeting at the Community House, the group was briefed on the Oakland County Community College proposal which will be a major item on the June 8 annual school election ballot.

Technical-vocational courses offered by community colleges are closely geared to the needs of the communities they serve, Mrs. Cameron said. Training programs are tuned to opportunities for employment and new courses are created as new needs arise.

of Internal Medicine at Henry Ford Hospital, he has been vitally interested in the "Project S.S. Hope" and helped to plan the first trips.

Dr. Nixon is a graduate of Northwestern University and is a Fellow of the American College of Physicians. He is also a member of the American Board of Internal Medicine.

With Mrs. Nixon and two daughters, ages 7 and 10, he resides at 563 Lakewood, Birmingham.

Local Doctor To Illustrate Film On S. S. Hope

Dr. Robert K. Nixon, Jr. will be the speaker at the regular monthly luncheon meeting of the Episcopal Churchwomen at St. James Church on Wednesday, April 15.

Dr. Nixon has served as chief of medicine on two rotation trips to the S.S. Hope to Peru and Ecuador, from which he recently returned. He will show a film which illustrates the work being done there.

Ask the Doctor

This column is presented as a public service by the Oakland County Medical Society and The Birmingham Eccentric. It is written by 445 physicians in Oakland County, who are members of the society. Questions should be addressed to the Oakland County Medical Society, 346 Park, Birmingham. Questions must be of a general nature, as no effort will be made toward diagnosis or treatment in specific cases.

close friends and relatives. SPECIAL DIET FOR ARTHRITIS? Q-Are special diets recommended for arthritis patients? A-THERE IS nothing you can eat or not eat that will cause or cure arthritis. Extensive research has been conducted in the area of food and arthritis and the only conclusion reached is that the arthritis patient should have well-rounded, nourishing meals—the same as normal persons. If overweight, the patient should shed the excess pounds simply to reduce the load on the inflamed joints. The majority of women with osteoarthritis are overweight, according to the Arthritis and Rheumatism Foundation. GOUT CALLED FORM OF ARTHRITIS? Q-Is gout the same as arthritis? A-PERHAPS MORE for convenience in classification than for any other reason, gout usually is considered a form of arthritis. There is at least anatomic justification for this since the most disturbing symptom in gout involves various joints. Uric acid deposits in and about these joints produce pain, swelling and restriction of movement. Such deposits will often be found in other areas, perhaps the most common being the upper edge of the external ear. Gout is different from ordinary arthritis in that its exact cause is known to be an accumulation of uric acid in the body. Also, unlike other forms of arthritis, gout is now not difficult to control. Most gout patients do not require extensive dietary restrictions. The exact cause of other types of arthritis has not been identified and there is no specific curative remedy.
