

Franklin Flips Over Flapjacks!

NITA HARD
MA 4-3234

A pancake supper is more than just a meal in Franklin. It's a social event in the Village!

That's why the sixth annual Pancake Supper, to be held by Boy Scout Troop 1011 on Friday at the Franklin Community Church, takes a big banner across Franklin Road, right in the heart of town.

While countless golden flapjacks flip off the griddle, teams of young scouts will cater to the wishes of their guests who come in droves to the traditional spring treat.

SERVING BEGINS at 6 p.m. and continues until 8 p.m., or when the very last person has been served.

Moms loyally support the project, which supplements the troop treasury for a fuller scouting program, by manning the sausage and fish grill.

Even the most calorific conscious abandon their high resolve at this eat-all-you-want, revelry.

RECOLLECTIONS of a holiday in Alaska were shared with Stone Oak neighbors on Saturday night. Mrs. and Mrs. Hollis Hollings of S. Greenbrier entertained 15 couples with their Almas of Alaska.

Tickets

(Continued from 1-A)

Including bus and plane transportation, hotel accommodations, and one ticket to the Fair. Reduced rates are in effect for married couples.

The travelers will leave The Eccentric, 1226 Bowers, at 7 a.m. Tuesday, May 26. They will fly from Metropolitan Airport in Detroit to Kennedy Field in New York and will be there in time to visit the fair at noon.

In New York, the group will be free to make their own plans for touring the fair and seeing the city at their own pace.

Departure time will be early evening on Thursday, May 28.

A coffee hour will be held at The Eccentric on Saturday, May 9, to offer the travelers an opportunity to meet each other and to ask questions about the tour.

Set Public Hearing on Paving Of Bird-Smith Area Streets

A public hearing will be held May 18 before Birmingham city commissioners to consider the paving of five streets in the southwestern area of the city.

The hearing of necessity will cover the paving of Bird, Smith, Davis, Emmons and Humphrey. The following week, May 25, hearings will be held on the paving of Southern, Calhoun, Cedar, Ford and Edgewood.

City Engineer William T. Killen said that over the years the City has received occasional requests for the paving of streets but had not been able to begin the project until after relief sewers could be installed. (Sewers were constructed in the area this year.)

PARENTS AND FRIENDS of Franklin children are participating in the series of talks by Dr. Armin Gram, director of education at Merrill-Palmer, slated for April 29 and May 6 in the library of Franklin School.

Mrs. William Kahn and Mrs. Richard Barnard have handled registrations for the talks that begin at 8 p.m. and include the topics, "Parent's Part in Children's Learning," "Moral and Character Development of Children" and "Sex Education."

Ballots

(Continued from 1-A)

A number of Birmingham area residents are supporting the charity ball to be given April 29 at the Sheraton-Cadillac Hotel in Detroit by Women's American ORT (Organization for Rehabilitation Through Training).

Mrs. Eugene Epstein of Franklin is chairman of the event, others involved including President Mrs. Philip Minkin and Mr. Minkin, Mr. and Mrs. Paul Zukerman, Mr. and Mrs. Lee Hamburger, Mr. and Mrs. Sydney Heinrich and Dr. and Mrs. Harvey Cole.

Reservations for the ball are also held by Dr. and Mrs. Jack Kaufman, Mr. and Mrs. Henry Parlier, Mr. and Mrs. Joseph Braver and the Donald Marrechs.

another advantage would be that all of the streets could be included in one project, thus allowing the City a chance to receive better bids on the contract.

This, he said, could be passed on to the property owners.

GARE ALSO suggested that because of the large amount of work done in the area during the last three years, normal assessment policies might not work.

"In order to avoid delaying paving the streets too long and yet reduce the burden of immediate costs on the property owners, the assessments might be spread over a comparatively long period of time," Gare said.

He recommended the payments be made in five installments instead of the regular three payments.

Since 1961 property owners in the area have been assessed for both sidewalk construction and sewer installation.

A 'Better to Give' Celebration

Birmingham Lions celebrated their 36th anniversary this week by writing checks to benefit local projects and organizations.

Earnie Belding (left) sight conservation chairman; Manley Bailey, chairman of the girls' and boys' committee and President Ralph Alexander are preparing a \$500 check for the Camp Oakland summer camp program. Other donations are \$400 for rain

capas and helmets for Safety Patrol Boys; \$250 each for The Birmingham Community House fund and the Penickton Nursery, which gives care for pre-school blind children. Other contributions include the Birmingham Y camping fund, Wolverine Boys State, Wolverine Girls State, Birmingham Girl Scouts Campership Fund and Lion-sponsored Scout Troop 1004.

TO RELIEVE CONGESTION

Transfer 200 New Students At Beverly, Valley Woods

The Birmingham Board of Education last Tuesday night approved a plan to help relieve over-crowded conditions at Beverly and Valley Woods elementary schools.

The plan will involve the transfer of about 200 pupils beginning in September. The board must still make arrangements for about 175 additional students in over-crowded areas of the district.

All of the transfers will be in effect until a new elementary school can be constructed at 13 Mile at Evergreen. The school is part of the \$5.3 million construction program voters will be asked to approve June 8.

DR. JOHN B. SMITH, superintendent of schools, told the board that population growth in the current school districts of Beverly and Valley Woods indicated that neither of these schools could accommodate the students within the district for the 1964-65 school year.

Beverly School, with a maximum capacity of 640, has an estimated enrollment of 921 and if there are no changes in the bound-

aries this may grow to 1,479 by 1968," Smith said.

He said Valley Woods has a maximum capacity of 535 and has an estimated 725 for September of 1964. If there were no changes made in the boundaries, Smith estimated the number could grow to 790 by 1966.

UNDER THE NEW board plan, students will be shifted in this manner:

- Transport for the 1964-65 year from Westwood Estates those children who enroll in the schools on or after April 15, 1964 to Midvale Elementary School rather than Beverly. (Those children living in Westwood, currently attending Greenfield, may remain there if parents so desire and will provide transportation.)
- Those children who enroll on or after April 15, who reside in the area bounded by Evergreen, 13 Mile and on the east and south by the school district boundaries will be transferred to Baldwin School.

THE BOARD also agreed that if the construction of the new science wing at Seaholm High School is approved in the bonding program, the Harlan area students who would have been transferred to Groves beginning in September will be allowed to remain at Seaholm.

The students will be permitted to remain at Seaholm only if the science addition is approved.

rolled on or after April 15, who live in the Huntley Subdivision will also be transferred to Baldwin.

- Transfer to Quanton Elementary School those youngsters enrolling on or after April 15, who live in the area bounded on the west by Beverly and Bingham Farms; on the north by 14 Mile; on the east by Lahar and on the south by 13 Mile.

- Transport to Adams school those pupils who enroll on or after April 15 who live in the area bounded on the west by Telegraph; on the north by 13 Mile; on the east by Evergreen and on the south by the school district boundary.

THOSE CHILDREN who en-

FLACK SAID the 94 members of his committee had given "a lot of thought" before deciding on Stevenson's poem.

It reads:

"Here is the mill with humming of thunder
"Here is the weir with the water of foam,
"Here is the sluice with the race running under
"Marvelous places, though handy to home!"

The millstone will be dedicated on Friday, May 22, as part of the Michigan Week - Centennial Heritage Day observance.

Strips

on the east side from 14 Mile to Oak.

THE 17-MONTH deadline for the access drive was set up because the property owners are currently being assessed for an alley construction program in the area.

A \$34,708 contract for the construction of the alley was awarded to the Banchemo Cement Co. by commissioners Monday night.

The bid was approximately 11 per cent under the City's estimate of cost, Gare said. The new alley will be on the west side of Woodward from Lincoln to Blvd.

Gare said an arrangement would be worked out so the alley program and the divider construction will not be carried on at the same time.

Businessmen along Woodward had expressed concern over access to their property if both projects were going on at once.

Beverly

which have gone without attention practically since installation. Thus it becomes necessary to promote matching funds by taxation in order to draw an equal amount from gas and weight tax revenues.

He pointed out that the village street system grew by 4.85 miles in local streets, making a total of 40.84 in 1963.
