**Neighborhood  
 Notes  
 From Peggy**  
 BY MRS. J. F. HAMILTON  
 MI 6-2532

There's a new family in the  
 neighborhood, but no one has  
 been able to interview them.  
 The attractive young couple has  
 been seen walking up the  
 street several times. The first  
 time a lady in a station wagon  
 stopped, all four doors of the wa-  
 gon flew open and several chil-  
 dren got out and started toward  
 the couple. They disappeared. They  
 seemed frightened.  
 A day or so later, they were  
 out for another stroll and three  
 little boys started toward them,  
 arms outstretched, and they hur-  
 ried away again.

It's doubtful if they were trans-  
 ferred here by General Motors.  
 No one can discover if they have  
 any college degrees, but the Mr.  
 could be a junior executive. He  
 is very well dressed. He wears a  
 grayish brown coat, his hat and  
 tie are glossy green, shaded with  
 prussian blue and purple. His  
 slacks are glossy black. He wears  
 two white and two black bars on  
 each of his sleeves and a white  
 hand around his neck. His shoes  
 are orange red.

The Mrs. wears a dusky brown  
 coat. She doesn't have that Bir-  
 mingham look.  
 It's surprising that a pair of  
 mallard ducks would want to set-  
 tle in this neighborhood.

**SPRING OPEN HOUSE** will be  
 held at Torry School Tuesday,  
 May 5, at 7:30 p.m. Students are  
 invited to bring their parents to visit  
 their rooms and chat with the  
 teachers. PTA president M. Lynne  
 Geiger promises to have an ex-  
 hibit on hand to answer questions  
 concerning the school election  
 June 8, when citizens will vote  
 on proposals calling for a  
 \$5,300,000 bonding program and a  
 millage increase of 5.5 mills in  
 1964 and 7.5 mills from 1965-  
 1968.

Mrs. Dwight LaBarre, hospi-  
 tality chairman, and her commit-  
 tee will serve refreshments. Tor-  
 ry School Principal Arthur Keller  
 will be there to welcome parents.  
 Mrs. Edward Horvath, PTA  
 mother vice-president, is chair-  
 man of the Torry Kindergarten  
 Round-Up to be held May 6 in  
 two sessions, 10 a.m. and 1:30  
 p.m. Invitations were sent to  
 120 mothers, 90 for session.

On the program will be Mrs.  
 Sarah Ball, school nurse; Mrs.  
 Ella Mae Roback, speech coordi-  
 nator; Mrs. Dorothy Smith, visit-  
 ing teacher, and Arthur Keller,  
 school principal. Mothers will also  
 visit rooms of kindergarten  
 teachers Miss Linda Zacharias,  
 and Mrs. Lillian Fishtaler. Mrs.  
 Dwight LaBarre is in charge of  
 refreshments.

**MRS. B. MUNFORD REID**, 1661  
 Haynes, is home. She re-  
 turned April 18 after spending  
 the winter in Chatham, Va., at  
 the home of her sister-in-law,  
 Mrs. W. R. Herndon.  
 Hostesses at a stork shower  
 for Mrs. Daniel J. Lamb Wednes-  
 day night, April 22, were Mrs.  
 John F. Crowell, 1649 Mansfield,  
 and Mrs. Lloyd Jones, 1656 Man-  
 field. Guests at the shower, held  
 in Mrs. Crowell's home, were Mrs.  
 Charles E. Brodeur, Mrs. Eugene  
 J. McCormack, Mrs. Richard L.  
 Houghton, and Mrs. J. L. Pal-  
 lone.  
 Mr. and Mrs. Carl E. Her-  
 mundson, have been visiting at  
 the home of their daughter and  
 son-in-law, Mr. and Mrs. Wil-  
 liam Kelley, Jr., 1692 Bowers.  
 Mr. and Mrs. Hermondson of El-  
 iava, Wis., have been here since  
 April 14 and left for home yes-  
 terday.

**Ask  
 the  
 Doctor**

**DR. JOHN A. HANNAH**

This column is presented as a public service by the  
 Oakland County Medical Society and The Birmingham  
 Eccentric. It is written by "465 physicians in Oakland  
 County" who are members of the society. Questions should  
 be addressed to the Oakland County Medical Society, 346  
 Park, Birmingham. Questions must be of a general nature,  
 as no effort will be made toward diagnosis or treatment in  
 specific cases.

**FILLING BABY TEETH**  
 Q—Just how important is filling baby teeth? Wouldn't  
 it be better to take a chance of losing them, particularly  
 in our eight-year-old, who will lose her molars in a couple  
 of years anyhow?

A—Children's teeth are important for both proper  
 nutrition of the child and normal growth of the jaws  
 and face. Decay in baby teeth or anywhere in the mouth  
 —increases the development of new decay areas, some  
 of which might be in permanent teeth.  
 Children's dental care not only assures them of health  
 benefits in adult life but also will lower cost of maintain-  
 ing healthy teeth throughout life.

Q—Is it TRUE that a tooth that has been knocked out  
 can sometimes be put back in and made to live?  
 A—If a tooth is knocked loose or even lost in an acci-  
 dent, see your dentist immediately. He may be able to  
 save the wobbly tooth, or even re-implant the lost one.  
 If the tooth is dislodged, place it in a glass of warm water,  
 add a half-teaspoon of salt, and bring it along. Re-implant-  
 ing it often succeeds, especially in youngsters from nur-  
 sery through college.

**STRAWBERRY MARK CONGENITAL?**  
 Q—Is the strawberry birthmark considered congeni-  
 tal? Is it common?  
 A—The term congenital means "born with." Evidence  
 shows that under this definition strawberry marks are  
 not congenital.  
 In a recent survey of nearly 5,000 births, not a single  
 instance of such a mark was found at the time of birth.  
 In most infants who developed such marks, the parents  
 usually noticed it from a week to a month and a half  
 after birth.

**THIS SKIN MARKING** is estimated to occur in one of  
 every 10 to 12 infants. In most cases, it disappears just  
 as quickly as it develops after being present from a few  
 months to a few years.  
 If treatment is considered necessary it usually can be  
 done without the need of surgery. The mark represents  
 a simple dilation of small skin arteries, and is harmless.

 STORAGE**  
 even small change  
 adds up...  
 Whether you only save change, or set aside  
 several dollars every payday, the important thing  
 is to save regularly in a Manufacturers Bank  
 Savings Account. Suppose you deposit just five  
 dollars a week. That's \$260 at the end of the first  
 year, plus 3 1/2% annual interest! paid quarterly.  
 And the longer you continue this practice the  
 faster your savings grow, because Manufacturers  
 compounds the interest.  
 Whatever the amount, start now to save regularly  
 in a Manufacturers Bank Savings Account. See how  
 quickly your money adds up. Even your small change.
