**CONSERVATIVES**  
 The Communists are determined to destroy entirely the three great human localities — to God, to country, and to family. Most Americans are not even aware of the Communist's hands at work in this destructive game on all around them. If you want to save the glorious country and humane civilization which we ourselves inherited, first investigate our constructive opposition to Communism. Education is our basic strategy and truth is our only weapon. It is also the only weapon which the Communists fear. For if enough people in the United States know the truth, for instance, as to what and who are behind the present racial agitation, there would not even be any Civil Rights Act now pending in the Congress.

There is nothing secret about our activities, but we'll send you material in a plain envelope if preferred and nobody will contact you unless you request it. Preliminary information free. Or our introductory Packet postpaid for one dollar. Or our Special Packet, to give you an even more intimate understanding of our background, methods, and purposes, postpaid for five dollars.

The time has come when you should find out for yourself. Address: The John Birch Society, Belmont, Massachusetts 02178.
