Corn-on-Cob is a Hit WITH Foreign Visitors

By GLORIA JENSEN

There is nothing so friendly as hot corn on the cob with butter and salt. This is an American delight which we hope to bring to Canada and Great Britain. Not as it is in England or in Argentina, where it is eaten on the cob, but now and again, when the market is in the hands of well-known grocers. It is a delightful change from the usual corn on the cob. The British are quite willing to try anything new, and we suggest this as a new and delicious treat.
