# First Br. Rice Senior Class Set for Graduation Exercises

By JOHN MCGUCKIN  
Special Writer

With little more than a dozen days left in their high school careers, Brother Rice High School seniors can think of nothing but their graduation exercises on June 14.

Plans are being made to enable as many members of Brother Rice's first senior class to attend the

annual senior day held at the University of Detroit on Sunday, May 17.

THE BROTHER Rice chapter of the National Honor Society announced last week that nine Brother Rice juniors had been selected for membership in the Society. The Aquinas Chapter is now composed of 60 BRHS Juniors and seniors. A spokesman of the

Aquinas Chapter said that no formal induction will be held. The nine new NHS members, will however, be able to take part in the upcoming election of officers.

Accepted for active membership were Bill Brown, Bob James, Dave Dean, Jerry Grabowski and Ken Szymczak. Also to receive Honor Society cards and certificates are Jim Barbour, Jim Cummins, Mike Bennett and Jim Bodary.

Brother Rice and Marian students barely had a chance to catch their breath from the rehearsals for "The Mouse That Roared" than a good many of them began another rehearsal schedule. All rehearsals this time are in French!

BROTHER J. A. Grimaldi is producing two French plays to be presented twice this month. "La Parure" and "L'Anglais tel qu'on le parle" will be presented to the French-speaking student bodies of Brother Rice and Marian and then will be presented in a program of student French plays to be held later this month.

"La Parure" is a dramatic version of Guy de Maupassant's short story "The Necklace." Brother Rice students participating in this production are Jack O'Hara, Pat Raleigh and Henry Grix.

"L'Anglais tel qu'on le parle" is roughly translated into "However English is Spoken." This play was double cast to enable more students to participate. Conal O'Connell and Jerry McGowan have major roles in this part of the BRHS-Marian double bill.

JOHN DALY, a junior at Brother Rice, recently was awarded a grant by the National Science Foundation. This is the second year in a row that BRHS students have obtained grants.

John will attend the Engineering Division of the summer science institute to be held at the University of Kansas.

## B'field Country Day Celebrates Strawberry Time

By SUSAN JUDD  
Special Writer

This week the spotlight has been on the Strawberry Festival to be held on May 16 at Bloomfield Country Day School. The art classes are doubling articles for sale on the day of the festival, some of which are paintings and small sculptured models.

The girls have been working outside on the school grounds raking the lawn, picking up stones and digging dandelions so that the school will look well for the festival.

THE DAY OF the festival each girl will have some particular job to do, but will also have plenty of time for shopping, playing games and just looking around.

The next big event of the year is Class Day. This year a new feature has been added to the program. The lower school will present some German folk dances which they have been studying with our German teacher, Miss Monika Nuppenau.

Cape Horn, the southernmost point of South America, on an island off Chile's Tierra del Fuego, was discovered in 1616 by the Dutch navigator, Schouten. It was named after the city of Hoorn in Holland.

Folk-Lore—"Wearing two hats on your head will bring you bad luck." (It could also make friends think you're a bit strange!)

# ACME'S 10th Anniversary SALE!
