

We Salute The City of Birmingham

On It's 100th Anniversary

... and we look forward to a continuation of the growth and development that have characterized this city during this period.

Although we've only been in Birmingham six short years we do take pride in having our establishment located in one of the oldest buildings in the city. We feel a little longevity has rubbed off on us.

We take pride in being part of this fine community and most certainly would like to express our appreciation for the fine way Birmingham has received us.
