DOWN TO EARTH

Use Time and Space Wisely
To Get Garden Work Done

By ALICE WESSELL BURLINGTON

Our outstanding citizens, the well-known gardeners, Car-

bonne Vail, and others, have suggested the following:

- Use the time and space wisely.
- Start your garden early.
- Plan your garden layout.
- Use containers and raised beds.
- Involve the whole family.

These suggestions will help you make the most of your garden space. Remember, gardening is a wonderful way to enjoy the outdoors, so let's get started!
