I BEAT YOU!

By Dick Turner

Here’s one job you didn’t know you could do. Roofer used to be a big-boned man retired from a long career in the roofing industry. Then he was hired as the groundskeeper at the golf course. Now he’s a regular volunteer, rain or shine. He’s been spotted carrying a set of clubs and a cart down the fairways, ready to make sure the course is in top condition. And his skills aren’t just limited to the links — he’s also been known to lend a helping hand to other members of the club, from repairing fences to fixing up the caddy sheds.

We drove 3,243 miles to make a point about our Super Turbine transmission.

You can do it on the way to the grocery store.

BURLINGTON, Vt. — We have a Super Turbine transmission in New York City that runs on the street 24 hours a day for 12 months of the year, and the shafts and gears are still in perfect condition. The transmission is designed to handle the roughness of City streets and the vibrations of the city's traffic. It is built to last, and we are confident that the transmission will provide many years of reliable service.
