

Broomfield to Seek Fifth Term in House

WILLIAM S. BROOMFIELD

Cong. William S. Broomfield announced this week he will seek a fifth term in the U.S. House of Representatives.

The Royal Oak Republican said he will run in the new 285-square-mile Eighteenth District created by the Michigan Legislature on May 22.

It will be the largest congressional district in population in Michigan, with 417,174 residents.

A ranking Republican on the House Foreign Affairs Committee, Broomfield said he will continue his campaign for "efficiency, economy and freedom."

He has urged a firmer foreign policy in Southeast Asia and an end to foreign aid to such pro-Red countries as Indonesia.

BROOMFIELD said nominating petitions are now being circulated in his behalf in the new district, which comprises the east side of Oakland County.

Broomfield is in his eighth year

2-Car Collision Injures Three

Three persons were injured, including two teen-agers, in an accident at Cranbrook and Maple roads early Sunday morning.

Birmingham police said the driver of the first vehicle, Richard Piel, 2259 W. Lincoln, was attempting to make a left turn onto Cranbrook when he struck a car driven by William J. Embury in the rear.

The Embury car spun around and crashed into a city limit sign and utility pole. Embury, 22, of 4135 Rouge Circle, Troy, was taken to William Beaumont Hospital suffering from a possible brain concussion.

Piel, 16, was not injured. A passenger in his car, Susan Pratt, 14, of 1380 Lakeland, was treated for bruises at Beaumont and released.

The accident occurred at 12:27 a.m.

City Approves Ordinance for Historical Unit

The City of Birmingham has adopted an historical ordinance.

City commissioners approved the new ordinance Monday night. It calls for the establishment of an historical board of seven members appointed by the commission.

Mayor Charles W. Renfrew said the commission would make appointments to the board within the next few weeks. Each member will be appointed for a three-year term.

Both the city clerk and treasurer will serve as nonvoting ex-officio members of the board.

IN GENERAL, it will be the duty of the new board to collect, arrange, catalog and preserve historical material concerning Birmingham.

Meetings will be held at least four times a year and special meetings may be called at the request of the chairman or any three members of the board.

With approval from the commission the board will be able to acquire historical sites, buildings, landmarks or properties which it feels are appropriate.

It may also, with commission approval, erect plaques or historical markers in the city.

Funds to operate the board will be appropriated by the commission each year.

DONATIONS of money, personal property or real estate for historical purposes may be accepted by the board again with the consent of the commission.

The creation of the historical unit was first proposed in May by Commissioner Charles F. Clippert.

Records it debt to George S. Scott for his faithful and effective administration of the fire department of the City of Birmingham and

"Extend to the widow and children of George S. Scott its condolences and most heartfelt sympathy."

The resolution will be placed in the permanent records of the City and a copy will be presented to Mrs. Scott.

THE BIRMINGHAM chief, along with George Berz and Charles S. Farnum, was killed when their twin-engine craft crashed into a field near Wattle and Beech roads in Troy.

Airport owner Milton Berz, father of George Berz, said Tuesday that it would probably be 60 days before the cause of the accident would be known.

He said Civil Aeronautics Board officials had completed their investigation at the scene of the crash and had returned to Chicago to prepare their reports.

Berz said parts of the plane's engine had been sent to Washington, D. C., for testing.

Boy, 15, Drowns In Walnut Lake

WEST BLOOMFIELD — A 15-year-old Berkeley boy was drowned in Walnut Lake Saturday afternoon in a tragic climax to an annual church picnic.

As the Methodist Youth Fellowship picnic drew to a close, Glen A. Rickman dove into 30 feet of water from a raft, surfaced and started swimming back to the raft.

He was not seen again until 4:57 p.m. when his body was recovered in 25 feet of water, 75 feet from shore, by members of the Oakland County Sheriff's Dept. All attempts at resuscitation failed.

The boy was one of 40 persons attending the outing on a private beach at the lake.

Thorson Defense Begins Case Today

The prosecution was expected to finish its case Wednesday in the second murder trial of Robert M. Thorson.

Thorson, 32, of 2352 Buckingham, Birmingham, is charged with the Dec. 4, 1963, slaying of his wife's mother, Mrs. Dorothy M. Thomas, in her Detroit home.

The first trial ended with a deadlocked jury in June, 1963.

Assistant Prosecutor Max M. Silverman was scheduled to call Homicide Lt. Sebastian Effrid, the Detroit Police officer in charge of the case, Wednesday morning.

The first defense witnesses will be blood type experts from California and Oakwood Hospital in Dearborn.

A KEY ISSUE in the seven-day trial has been series of bloodstains found on Thorson's clothing.

A police blood expert testified Tuesday that he did not know whether the blood stains found on some of Thorson's clothing belonged to Mrs. Thomas.

Harold Alfutis was working in the police scientific laboratory at the time of the crime and made tests on the clothing. He now works for the St. Paul police department.

Alfutis testified he found Type A blood stains, the same as Mrs. Thomas', on Thorson's overcoat but could not break them down into a subgroup type. He also admitted he was unable to determine how long the stains had been on the clothing.

The testimony followed a decision by Recorder's Judge Elvin L. Davenport to admit the clothing as evidence in the trial. The de-

fense has contended the clothing was taken illegally from Thorson's auto when it was parked on a Birmingham street.

SILVERMAN SAID the clothing is the main basis for the prosecution's case.

Alfutis also admitted he did not have anyone else substantiate the results of his tests.

The defense witnesses, Dr. Albert Jennings of California and Dr. Rosser Malinwaring of Dearborn, are expected to testify to the various ways of checking blood types.

Smoking

suggestions passed on to the architect.

Authorized the expenditure of \$1,150 for materials to be used in a pilot program of first grade reading instruction, sponsored by the federal government. The program, which will involve about 75 pupils in the school district, introduces three experimental types of reading instruction.

Accepted a bid of 2.40 per cent per year from the Manufacturers National Bank of Detroit on a loan for new school buses.

Agreed to pay half the \$1,915 cost of blacktopping at Hickory Grove School.

Set a special meeting for Tuesday night to discuss the 1964-65 school budget.

Charge

Know Your Jeweler . . .

THE CARAT WEIGHTS BALANCE, But . . .

1 Carat Diamond \$1200

1 Carat Diamond \$450.00

A \$450 DIAMOND CAN NEVER BE THE EQUAL OF A \$1,000 DIAMOND WHEN PURCHASED FROM A RELIABLE DEALER

Claims to that effect can be made. But, given equal carat weights and different prices, the lower priced diamond automatically has less of the desired qualities that characterize the other diamond. Obviously, this does not apply only to the prices used as examples above.

Know your dealer. In him must be placed your trust for

value received. The reliable dealer is one who has pride in his profession, whose integrity is a matter of public knowledge. Aside from his integrity, he will never give less than fullest value because his living depends on your future purchases. If he appraises your "bargain" diamond as value less than paid for, it is not sour grapes, but the judgment of one who knows diamonds.

Know The 4 C's Of Diamond Value

Know that every diamond has four characteristics that determine its value—Carat weight, Color, Clarity and Cut. A \$100 diamond can have as perfect a combination of these as a \$1,000 diamond. The difference will be size. The individual investing in a diamond should ask himself whether it's size alone or the best combination of the four C's he wants in his diamond. A reliable dealer will give the latter.
