

**CITY OF BIRMINGHAM  
SIDEWALK NOTICE**

A recent survey indicates that certain sidewalks are in need of construction or replacement at the described herein. Chapter 24 of the Birmingham City Code requires the property owner to be notified of the City's intention to make sidewalk improvement. The owner may elect to contract to replace the sidewalk at his own expense. In that event, the City Clerk shall be notified accordingly by the owner within ten (10) days, and such work shall be completed within 30 days of receipt of such notice in accordance with Commission Resolution No. 22-64, which authorized the work. The work shall be done in accordance with the plans and specifications prepared by the Engineering Department, and a permit shall be secured prior to constructing or replacing the sidewalk.

The City is preparing to let a contract for sidewalk construction and in the event the property owner does not cause the walk to be constructed or replaced within the above specified time limit, the City will proceed to have the walk constructed or replaced by its contractor and bill the property owner for the cost thereof.

Sidewalk to be replaced has been designated with either green or yellow paint with the green indicating the property owner's responsibility and the yellow indicating the City's responsibility. The amount of work to be done may vary slightly from the amount of walk designated with paint.

The responsibility for sidewalk replacement is under the following conditions: (1) Sidewalk is damaged by a City tree. (2) Sidewalk has settled over sewer lines. (3) Sidewalk is damaged by a City tree at intersection and (4) Sidewalk is damaged by a City tree at driveway.

The City will construct or reconstruct or reconstruct will depend on the price paid to the sidewalk contractor. However, as a guide, the cost billed by the City for a 4 inch concrete sidewalk replacement in the 1963 sidewalk program was 47c per square foot.

For any additional information, please call the Engineering Department at M-1206.

**PROPOSED 1964 SIDEWALK REPLACEMENT PROGRAM**
