Selecting at Random

County Clerk-Register David R. Calhoun (left) and jury commission members Draper Allen, Elmer Johnson and Dorothy Rowley watch the IBM 1620 computer make a random selection of voters to serve as jurors. The commission has been interviewing prospective jurors so that the computer can select 1,427 names, or a year's supply of jurors, from the information supplied. Jurors are selected at a rate of one for every 500 residents but not less than seven from every city and township, regardless of size.

City Lots Goal

(Continued from 3-A)

study of the parking situation dealt primarily with lot No. 1 (near Detroit and Edison) and lot No. 4 (behind the Birmingham Theater).

These lots presently operate from 8 a.m. until 9 p.m. except on Sundays and holidays. The street meters and other lot meters operate from 9 a.m. until 6 p.m. except Fridays.

"SOME CONFUSION has resulted from the different hours of operation," Moxley said. "This confusion persists although the laws and meters are adequately signed." He said parkers often assume that the lot meters, especially near the theaters, are not in operation at night because the street meters do not operate.

"Complaints to the violation bureau are now averaging about one a week from motorists receiving tickets," Moxley said.

The chief said the cost of changing the signs in the two lots would be about \$570.

A suggestion from Commissioner William E. Roberts that police not check the lots in the evening brought only smiles from fellow commissioners and Moxley.

Budget

(Continued from 1-A)

the addition of new teachers to the school system, increments for present teachers and adjusted salaries for teachers coming to the Birmingham Hills district with several years' teaching experience.

Salaries for teachers in the elementary grades is estimated at \$1,100,127, while secondary teachers will receive \$1,075,886.

OTHER ALLOCATIONS in the 1964-65 budget are \$124,800 for administrative salaries; \$174,700 for pupil transportation; \$378,450 for plant operation; \$47,000 for capital outlay; and \$25,800 for fixed charges (insurance, Oakland County treasury bonds and interest on short-term loans).

The district will spend \$38,405 on special education and \$16,900 for community services.

Johnson said the budgets for the next two years after 1964-65 will probably be considerably larger due to new schools stemming from the district's \$7 million bond issue passed on June 8.

ballot if they did not approve of the commission's proposal.

IN A LETTER to the commission James H. Walker, Jr., 1655 Villa, urged a postponement of any action on Land R.

"No one is more desirous than I of a charter provision for initiative and referendum, but I am certain that the commissioners and the people of Birmingham can develop an amendment more suited to the particular circumstances and purpose than could be afforded by a mail-order model," Walker said.

The LVV proposal was a model amendment prepared by the National Municipal League.

"Exceptional caution is warranted in view of the delay following decision of the sponsors (LVV) of this proposal, until its presentation to you," Walker said.

AMERICAN SAVINGS AND LOAN ASSOCIATION

MICHIGAN'S LARGEST STATE-CHARTERED SAVINGS AND LOAN INSTITUTION
Telegraph Road and Maple Road / Other offices throughout greater Detroit

I am a homemaker. Managing the family budget is my responsibility. While paying the bills, how can I most effectively build our family savings?

Before some of the proposals such as structure parking, a village inn and the closing of Maple and Woodward can be implemented, Renfrew said, "a demonstrated need" must be proved.

When the paycheck comes home, make it a habit to first set aside a definite amount. Then place those dollars in a high-earning account at American Savings and Loan Association. That's where they'll earn 4% per year with insured safety.
