**TECO AUTOMATIC WHEEL BALANCERS**

TECO BALANCERS GIVE A SMOOTHER SAFER RIDE . . . which is absolutely impossible to achieve with conventional balancing techniques.

CONVENTIONAL BALANCING METHOD NOT ENOUGH . . . Conventional methods balance a wheel under a single artificial condition. Many factors are at work to change the balance of a wheel as it rolls down the road carrying your car . . . Speed changes it's diameter, tires ripple and flex, chug holes distort the circle, power and load change the shape.

TECO SOLVES THE PROBLEM . . . by constantly rebalancing the wheels as they roll, and giving you a safer, smoother ride, plus reducing expensive tire wear. Teco Space-age Automatic Wheel Balancers are a simple, fool-proof device, which brings you a new level of driving comfort and economy never before possible! Each Teco Balancer is a simple tubular plastic hoop, containing high-grade chrome-steel balls in a special fluid. Nested securely within the inner rim of each wheel, Teco Balancers are constantly in action, keeping the wheels balanced with every revolution . . . cancelling out the vibrations which cause passenger discomfort, driver fatigue and expensive tire wear.

There are sizes for all cars, even imports . . .

Set of 4 . . . installed . . . only 30 min. . . with road hazard guarantee
