SPORT FANS!

I BET YOU DIDN'T KNOW

By Dick Turner

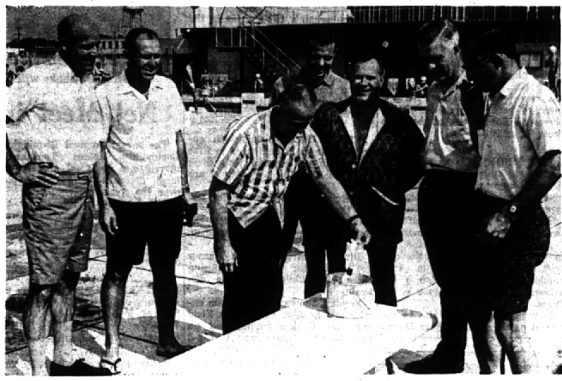

Can you imagine a player leading a major league in home runs at the end of a season even though he hit only six homers all year? ... Back in 1902, Tommy Leach of the Pirates hit six homers and became the home run champ of the National League! ... No one else was able to hit more than five that season!

Do you have any idea what was the smallest city ever to have a big league baseball team? ... Answer is Troy, N. Y. ... Troy was in the National League from 1879 to 1882.

One of the best-known terms in horse racing is "pari-mutuel" betting. ... Do you know who invented pari-mutuel betting? ... It was, of all people, the owner of a perfume shop in Paris, Pierre Oller. ... Oller invented pari-mutuel betting in 1865. ... He invented it because he was tired of losing to the bookmakers at Paris race tracks.

I bet you didn't know ... That we have a modern and fully equipped body and paint shop at 777 Rowers, at Elm. Keep your car looking sharp. Get your car fixed in our shop today!
