## from the DARTS

DART GT  
CONVERTIBLE

Perhaps you've heard about Dart. It's the fun-sized, family-sized compact. Nimble. Responsive. With oceans of stretch-out space inside. And a trunk that's bigger than some full-sized cars. Why do they call it a compact? Check our price. That's compact.

POLARA CONVERTIBLE

POLARA "500" SPORT MODEL  
HARDTOP

Polara is a low-priced car, but you'd never guess it to look at it. It's big, solid, well built. Its interior shows a rather unusual concern for your comfort. Seats, for instance, are chair high. Many "extras" on other cars are standard here. If you want to turn heads, turn to Polara. And it'll cost you a lot less than you might expect.
